JOB WORK Executed at THE INTELLIGENCER OFFICE is distinguished by Cheapness and Artistic Merit.

COPPER SHARES.

Safest Investment, Largest Dividends

"The cupiferous marl situated below the sandstone, containing 15 per cent. of copper, can be estimated worth at the place at least \$10.00 per ton, net."

FROM REPORT OF GEORGE F. RENDALL, MINING ENGINEER.

"It is a self-evident fact deducible from every report that on this property large bodies of copper ore exist and that hundreds of tons have been shipped of high grade ore."

FROM REPORT OF FRANCIS ARTHUR REALL, SUPERINTENDENT.

"This property is all right and there is all the copper you want here. I think it is the best in Texas and it seems to have been selected as such, for copper. It is near the top of a water shed and the ore here is all ore because there is coal. Oil has been found at Corsicana. The property is adapted to general farming purposes which seems to be very profitable here and a town could be laid out on it and a railroad built to Dundee, 12 miles, to a great advantage."

THE GREAT BOOM IN COPPER SHARES.

Copper mining has proved the safest and most profitable industry in America, and the largest and most conservative capitalists in the world have recently become large investors in copper stocks.

This company can produce copper as cheaply as any in the world. It is capitalized the lowest of any in proportion to its acreage, and at the price of copper-bearing land in Michigan (\$400 per acre) containing a much less per cent. of copper, has a value in excess of its low capitalization (\$25,000).

Receipts for ore and assays by the leading chemists and assayers in the country are on file in the company's offices.

The officers and directors of the company are men of the highest standing and business capacity, and include:

Hon. Emory M. Low, manufacturer, and Mayor of the City of Brockton, Mass., President.
George W. Russell, Paper Manufacturer, Boston, Vice-President.
Major F. M. Spaulding, 2d Vice-President.
Col. Edward M. Robbins, Boston, Treasurer.
Col. James M. Wheeler, Boston, Secretary.
Hon. Jas. W. Bennett, Ex-President Erie Telephone Co.

Only a limited amount of stock will be sold at the price of \$50.00 per share and those wishing to secure shares should act at once. The stock is full paid and non-assessable. As soon as this allotment is sold the price will be advanced.

Amount of land, quality and quality of ore, cheapness of mining and treatment, nearness to transportation, favorable climate for continuous work the year around, the increased already in profit in producing copper considering the Boston and Texas Copper Company possesses the most complete knowledge and affords the best kind of investment. It can easily earn 50 per cent. per year on the price at which the stock is here offered.

Stock may be ordered through your banker or broker, or direct as below.

FROM REPORT OF T. BURTON EVERETT, MINING ENGINEER AND EXPERT.

HON. EMORY M. LOW, President, and others, Boston, Mass.: "Gentlemen:—There is abundant evidence of rich copper deposits, not only on the property, but in the vicinity of the property, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States."

"The ore found in these deposits are immensely rich in copper values, and cupiferous clay that are also found here in immense beds, while not as rich, will undoubtedly prove of great value on account of the cheapness with which they can be mined and reduced."

"I have examined the various reports made by others, and confirm them."

"As far as I have been able to investigate, and I have done so carefully, I am of the opinion it is one of the richest copper fields in the country."

Mr. G. H. Savage, Mine Examiner of Butte, Montana, after gaining sample of ore from the property, says: "The ore is the richest in the country. If you have the field you can pay \$1,000,000 dividends per year."

Major F. M. Spaulding, of Boston, and C. F. Crosby, Esq., of Lowell, Mass., who returned June 10th from an examination of the property on behalf of the Company's stockholders and intending investors, report that they found the property as represented and confirm the expert reports. They visited and examined the nine mines and explored the entire property.

The Company is thoroughly organized with substantial business men in the management. It has such extensive acreage of land, rich in copper, and so easily and cheaply mined and converted, that dividends can be earned and paid during the current year. Now is the time to make a safe and profitable investment, and those who take advantage of this opportunity to buy stock at the low price offered will reap the benefit.

Remit by P. O. Order, Registered Letter, Check or Express to Edward B. Robbins, Treasurer, Tremont Building, Boston, Mass. Price, \$50.00 per share, Subject to advance.

Constance Wins Again.
Montreal, July 31.—The American challenger Constance took the second in the series of races this afternoon, defeating the Canadian by 15 seconds. Though it must be admitted that Captain Crane was more fortunate than Dugan in finding wind, it looked as though the latter designed bad luck. If the Constance was today's race she will take back the Seawanhauk Cup.

Afraid of the Shamrock.
London, July 31.—An American yachtsman who has been studying Shamrock says: "I am convinced that this boat far surpasses any boat ever floated in English waters. Our friends must be too confident. Columbia will have all she can do, even if she kills her people, say she is. My conclusion after most careful survey is that Shamrock is thirty minutes better than Britannia in fifty miles. Britannia never before was in as good shape as in this trial. The Prince of Wales is a true sportsman and he spared nothing to make her fit."

United States by One Run.
Winnipeg, July 31.—The international cricket match here was finished today by the United States and Manitoba, the United States eleven winning by one run, the total being 162 to 161. In the first inning Manitoba got 58 and United States 74. Second inning, Manitoba 103, United States 88. The game was practically won by Bates, of Chicago, who made two boundary hits after nine wickets had fallen.

Belgium Will be at the World's Meet.
The entry list for the World's Bicycle Meet to be held at Montreal, Aug. 7 to 12, is exceedingly long. The last country to be heard from is Belgium, and three representatives will do King Leopold honor in this city. These athletes were received yesterday by cable from Mr. Stunney, Secretary of the L.C.A. The official entry list must come by mail, and until that arrives, the names of the Belgium competitors will not be known here. The entries closed at the championships on Wednesday, July 26, and for the open events today.

An Ungrateful Young Man.
Much sympathy is expressed for a widow lady of this City, whose son, a youth nearly at the age of manhood, has used her ungratefully, to say the least. Although being steadily employed here he had it seems, become dissatisfied, and in company with another young man, left on Sunday night for the land of the Stars and Stripes. He did not take the trouble to bid his mother good bye, and it has since transpired that he has sold his kingly, taken the best value in the house, the property of his mother, and since his departure, for a gold watch, and that made him, of his father, and highly prized by his mother on that account, cannot be found. Friends of the family are justly indignant at the young man's action.

Hospital Notes.
Dr. Rogers, of Stirling, was brought to the hospital this afternoon, suffering from an attack of typhoid fever.
A man named Sherwood, from Brighton, who last winter had the misfortune to have both feet frozen off, is here in the hospital, and will undergo a painful operation. To morrow one of his legs will be amputated at the knee, and at a subsequent date the other will also be amputated. A local physician will perform the operation.

Sentence Deferred.
Jas. Walters, the alleged tramp who was found guilty of assaulting the boy, Geo. Little, of Trenton, was brought before acting Judge Luzzier this afternoon for sentence, but as he desired the authorities to write to Toronto for references as to his previous character, sentence was deferred. He will be brought up again on Monday next at 10 o'clock.

Vital Statistics.

None of His Business.
A story illustrating the reticence of the Scotch regarding their private affairs was told by Ian Macdonald, a Scotchman, at a recent dinner.

A train was at a railroad station, when a porter put his head into a car and called out:

"Any one in this car for Don't Change for Don't? Any one for Don't?"

In a few minutes the train was speeding along, then to stop again for nearly an hour. Then an old creature hither pointed him at that age.

"I'm for Don't, but I'd no tell that man so."

He Did.
"Did you ever laugh until you cried, Tommy?"

"Yes, only this morning."

"Well, you stepped on a tack, and I laughed. Then you caught me laughing, and I cried."

Siam has a population variously estimated from 7,000,000 to 10,000,000, but the true figures are probably about 8,000,000. Its area, which approximates 250,000 square miles, or nearly the size of Texas, could easily support 40,000,000.

Between Madagascar and the coast of India there are about 10,000 islands, of which 600 or more are inhabited, and most of which are capable of supporting a population.

COAL MINES.

Safest Investment, Largest Dividends.

The capital stock of the Boston & Texas Copper Share (per \$10 for Treasury purposes), and its interest.

A large tract of rich copper land in North Texas which is the largest in the world. The tract is some 10 miles long and about 6000 acres wide. It contains extraordinary mining claims.

To begin producing at once, large amounts of water are pumped out and marketed, and inexhaustible quantities of coal, copper found. (Calumet and Hecla and other mines.)

Large quantities of oil, gas, fuel and water are available. The ores and fuel can be mined and converted into copper by electrolysis. The material per day, and according to engineers will produce from 15 to 20 tons of copper per acre at 15 cents, per pound. It is now 18 cents.

We have a record in the State Geological Reports. It is the best engineering, geological and expert, authorities have examined it and all questions. It is not an experiment, nor its value is proved.

HARVEY, FORMER STATE CHEMIST
OF TEXAS.

It has been traced over the summit and sides of those mountains, many, hardly a 160 acre tract should be owned.

On the whole, the Island level, and ten hours' work would produce, averaging about 60 per cent. of copper.

"The capricious mar! situated below the sandstone, containing 15 per cent. of copper, can be estimated worth at the place at least \$10.00 per ton, net."

FROM REPORT OF GEORGE F. RENDALL, MINING ENGINEER.

"It is a self-evident fact deducible from every report that on this property large bodies of copper ore exist and that hundreds of tons have been shipped of high grade ore.

"That a deposit of this nature can at a very small expense be made to yield handsome profits, from all existing reports, appears not only likely but certain."

FROM REPORT OF FRANCIS ARTHUR REALL, SUPERINTENDANT.

"This property is all right and there is all the copper you want here. I think it is the best in Texas and it seems to have been selected as such, for copper. It is near the top of a watershed and the hills crop out here. I think there is oil here because there is coal. Oil has been found at Corsicana. The property is adapted to general farming purposes which seems to be very profitable here and a town could be laid out on it and a railroad built to Dunsmuir, 12 miles to a great advantage."

THE GREAT BOOM IN COPPER SHARES.

Copper mining has proved the safest and most profitable industry in America, and the largest and most conservative capitalists in the world have recently become large investors in copper stocks.

This company can produce copper as cheaply as any in the world. It is capitalized the lowest of any in proportion to its acreage, and at the price of copper-bearing land in Michigan (\$400 per acre) containing a much less amount of copper.

REPORT OF T. BURTON EVERETT, MINING ENGINEER AND EXPERT.

Others, Boston, Mass.: * * Gentlemen:—There is abundant evidence of rich copper deposits in Arizona, particularly at the mines already reported, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States. It is abundantly rich in copper values, and copper veins of considerable thickness that are also found here in immense beds, while not as rich, will find the ore of the cheapness with which they can be mined and reduced.

the cost of mining will be very small, as the ore is not in hard formation; and there is no deep work to be done by others, and confirm them.

Butte, Montana, after gaining sample of ore from the property, says: "The ore is the richest in the country. If you have the property, especially yours, buy it."

Mr. C. F. Crosby, Esq., of Lowell, Mass., who returned June 16th from an examination of the property on behalf of the Company and that they found the property as represented and confirm the expert reports. They visited and examined the nine mines and with substantial business men in the management. It has such extensive acreage of land, rich in copper, and so easily and cheaply mined and paid during the current year. Now is the time to make a safe and profitable investment, and those who take advantage of this offer will reap the benefit.

Glencairn Won the Third Race.

Montreal, Aug. 1.—The Canadian defender, Glencairn III, won the third of the series of races for the Savannah cup, which was sailed on Lake St. Louis this afternoon, crossing the finishing line 3 minutes and 30 seconds ahead of the American challenger.

The race was the most exciting one that has ever been sailed for the cup, and was full of surprises. At one time it was thought that it would be Constant's race, but the fine sailing of Dugan, the Canadian skipper, enabled him to secure victory and to bring back the trophy.

The Constant did well in windward work, but on the free run was outwitted by the Glencairn. Towards the close the breeze had gone down so much that it became almost a dilling match. Dugan, the Canadian skipper, today sailed a splendid race, and some of his tactics were very clever. The sea was now stands two in one favor of the American boat. Tomorrow's race will be over a triangular course.

Shamrock Sails To-morrow.

Greenock, Scotland, Aug. 1.—The American's cup challenger, Shamrock, left her jury sails today preparatory to starting Thursday for the United States. Lloyd's agents were very exacting in regard to strengthening the yacht, and the workmen have had great difficulty in boring holes in the aluminum. Her compass will be adjusted to-morrow.

A Good Catch.

Robert Bell and John Draycott yesterday secured 14 black bass, averaging nearly 3 lbs., in about two hours.

Teddy Hale, the Irish bicycle racer, started from Hollowa Viaduct at London yesterday in an effort to ride one hundred miles daily for a year, Sunday excepted.

New York, August 1.—Fitzsimmons will soon undergo a surgical operation which will settle the matter of his future career in the ring. Fitzsimmons' right arm, which was injured in his bout with Hank Kenny, his sparring partner, several months ago, has been found to be a serious matter. Physicians who have examined the arm with X-rays found that a piece of bone at the elbow had been clipped away and an operation is the only thing that will be beneficial. Fitzsimmons says he is anxious for another go with Jeffries.

Love's Dearest Moment.

Love's dearest moment is not when the Are clasped in marriage, and the world is theirs.

Nor when all the important world has gone, and the passion like the archangel's stand.

Between two souls, and welds with fire the bands of love.

Upon the human law; nor when alone of the universe they are, and are no more.

It is not in the many morn'g's that love is found, but in the loving hours more rich and true.

Will love account upon love's wrongs, and love's dearest moment is far back, far back—When first they looked within each other's eyes.

And in the silence knew that love was come.

Daily Intelligence.

OUR SUPPLY IS NOT LIMITED.

When the Water Committee took over the works from the late Company, they modeled, to a large extent, their rules and regulations after those in force at Montreal. A very good plan, no doubt, but still, like all other plans of human devising, open to improvement. For instance, Montreal has no excellent reason for not being over-generous in supplying its citizens with water—the source from which they obtain their supply is liable to run short. There is no danger of that in Belleville. It will take an earthquake to curtail the local source of supply. Many citizens are complaining of the scantiness of their service, and the gentlemen who compose the Water Committee will be working in the public interest if they can make some improvement.

SNAP SHOTS AT TIMELY TOPICS.

A gentleman named Cranston has an article in the North American Review on the United States army, and he says:

"We have the most superb army and navy on this earth; in courage, in morale, in efficiency, intelligence and patriotism, no finer bodies of men exist anywhere. Their achievements glow like stars in the firmament of our national glory. They serve the best we can give them in all things."

Modesty was never the besetting sin of the United States people. No doubt a good deal of what Mr. Cranston says in terms, but just at present the "superb army" seems to be merely making time in the Philippines. However, self-praise is, perhaps, better than none at all.

His yowls. —Alone they walked upon the beach; Old Ocean's sullen song; Far from the madding throng; He'd love her evermore— He roars.

But as they strolled upon the sands, He slipped upon a stone, And fell down on his hands and knees, Where came a stifled groan; And then he softly arose; Some more.

—An Indian Rajah is reported to have ordered a bicycle which is coated in gold paint—frame, spokes and rims—with gold. It is, further, to be studded promiscuously with precious gems, and even the saddle is to be ornamented with rubies and turquoise. This is what is meant by the State of the Moghul.

—Hamilton Herald:—A correspondent reports that Speaker Bain had a clean shave before entering upon his new duties. Wentworth people will remain in painful suspense until they learn whether this means that Mr. Bain has parted from his whiskers. Surely that sacrifice was not necessary.

—A man at Fort Wayne, Ind., let his son drown rather than pay a diver \$2 to the rescue. He was willing to pay \$1. It is a wise father that knows the value of his own son.

—Kingston people are much agitated over the prevalence of the "backers" tick in their city. The hand of an all-wise Providence is shown in this. They needed something to keep them awake.

—Englishmen don't like the idea of having the Queen's Cup won by the Emperor William's yacht, the Meteor. But she was built in Britain and sailed by a Britisher, so there's not much to weep over after all.

—Toronto News:—If ministers could preach as editors tell them, and editors could write as ministers advise, a prime cause of friction in the world would be removed.

—A Norwood correspondent of the Register breaks the record with the following astonishing sentence: "And the smell of this new mown hay can be heard in the distance."

—Now it's copper that has been found in Cuba. The Spanish idea, that the whole island was a mine, does not seem to have been so very far wrong.

—Toronto News:—As an instigator of untruthfulness Satan runs close with the black bass at this season of the year in Canada.

—Woman is making progress even in slow old Italy. A band of female brigands has been captured near Naples.

—An up-to-date tribe of gypsies has elected a new queen by telephone. Without profanity, she may be called a Hello queen.

—Pittsburg Chronicle:—Laurier is the funniest premier in the business.

—No Fair this Year. In yesterday's Mail and Empire Belleville was given credit for being public spirited enough to hold a fair on Sept. 13 and 14. Enquiry from the President discloses the fact that there was no fair, the Belleville City Council having refused assistance in any form.

The Light of Common Sense

will prove to any woman that there is no better shoe for feminine wear than the King quality at \$1. She doesn't need to be a judge to see that. Did you ever know that uncomfortable shoes affect a woman's temper? It's true, nevertheless, and so we can honestly say that a sweet disposition goes along with the style, the grace and the beauty of King Quality.

Another For The Glencairn.
Montreal, Aug. 2.—The Glencairn tied the score by winning the fourth and fifth of the series with the Constable by minutes 39 seconds in all kinds of weather, from a calm to a tempest and from sunshine to a thunderstorm. There was great opportunity for seamanship, and Captain Duggan got somewhat the better of the Captain Craig in this regard. On the whole, the wind was light, and there were no sea conditions which suit the Glencairn exactly. At the start the wind was from the northeast, but during the day it shifted to all points of the compass. The course was triangular, one and one-third miles to each leg, three times around, making twelve miles altogether. While the yachts were on the first leg, a heavy downpour came up from the west, and it drew nearer the wind dropped. Captain Duggan by his knowledge of the peculiarities of the lake judged the chances of the storm better, managed his canvas more skillfully and gained considerable advantage in the storm. The wind was now from the south and decreasing, so at 3:30 both shook out their new sails. Towards the end of the race the wind dropped and rain made the work unpleasant, to say the least, and Captain Duggan saw the squall coming and judged its arrival better, for his crew set hard to work and took in all reefs of the mainsail and set a storm jib. Then the hurricane struck the racers. Captain Craig followed his opponent, but was not soon enough, and was caught while yet the crew were reefing and drifted before the gale. The Glencairn seems to have won the race more by Captain Duggan's knowledge of the weather conditions of Lake St. Louis than by any of her merits. The Canadian boat won by 5 minutes 39 seconds. The final race is being sailed this afternoon.

The Dukes won.
A goodly number gathered at the Agricultural grounds yesterday afternoon to witness a baseball match between the Dukes and Maple Leafs, of this city. The game was a good one, resulting in a victory for the Dukes by one run, the score being 13 to 12. At the completion of the 8th innings the score was a tie, each team having scored 12 runs. The Maple Leafs, in their half of the 9th innings were blanked and the Dukes scored a run after one man was out. Mr. Wm. Draycott, of Montreal, umpired the game and gave universal satisfaction. The battery for the Dukes was D. Gibson and J. Canine, and for the Maple Leafs J. Burns and W. Ross.

At Windsor yesterday George Hendrie's four-year-old Our Lizzie ran seven furlongs in 1:27, establishing a Canadian record. The former record was made by Subito, and stood at 1:27.2. Lizzie ran second to Our Lizzie yesterday in a field of ten horses.

A large number were out fishing yesterday afternoon and some excellent catches of bass were reported.

Ace, a Canadian racing horse, made a mile in 2:05 1/4 at Columbus yesterday.

### WRONG ABOUT YOUR EYES.

You've been wrong in thinking you ought to put off wearing glasses as long as possible. This very thing is responsible for much of the present day eye trouble. All eyes begin to fail at 40 years of age. When complicated with uncorrected defects which have existed the failure begins much sooner. A correction at the right time will save your eyes. Neglect is bound to injure them.

### ASSAY OFFICE NOTES.

Items of Interest Concerning Mines and Mining in Hastings Co.

The Government Assay office is receiving a large number of samples from the Parry Sound and Sudbury districts for copper, nickel and gold assays. Most of the samples carry paying values of copper and nickel, and judging from present developments the northern portion of the province is to be benefited by permanent copper and nickel mining industries.

The following mining men are the office consultants: O.W. Sprague, manager of the Crescent Gold Mine at Malton, where his men are at work developing the property; J. Lee, managing director of the Olanowque Gold Mining Co., which are testing three tons of gold quartz ore from their properties in the Michipicoten district, at the mining laboratory, Kingston School of Mines, under the supervision of J. E. Gibson, Canadian Assay, who reports great activity in the extensive deposits of hematite, which are being tapped by the Algoma Central Railway under construction; J. E. Gibson, Canadian Assay, who reports opening of mica mines in Frontenac Co., owing to increasing demands for electrical purposes.

Jas. Tullio, Stirling, recently returned from a prospecting tour in North Hastings and Peterboro.

### We Can Give You

A large assortment of Ladies' and Gents' Fine Boots—to choose from this season than ever. Call in and take a look at our new fall goods.—YEMMYE & SON.

### FIRE AT DESERONTO.

The Chemical Works were Badly Damaged on Saturday Last.

Deseronto, Aug. 6th.—Between twelve and one o'clock to-day the Deseronto Chemical Works were discovered to be on fire. The alarm was immediately sounded and the firemen were pouring on streams of water. The fire was confined to the tar condensing rooms, which were destroyed, together with that portion of the roof. Had the fire entered the rooms where there were large quantities of alcohol and other chemicals the result would have been quite serious, as it was there a loss of about \$2000, which is covered by insurance. The origin of the fire was probably from one of the mixins which lead from the char at kilns.

### Gentlemen's Top Coats.

We have received an early shipment of fashionable light weight fall top coats. These garments are equal in every respect to any made-to-order garments, and cost nearly one-half. Quality, fit and work guaranteed. \$7.00, \$8.50, \$10.00—QUICK & ROBERTSON.

### THE RAILS SPREAD

And Mr. Joseph Henderson, the Night Yardman, was Injured.

An accident occurred near the Grand Trunk Railway station at 5:50 this morning which fortunately did not result in the loss of life, and only one person was injured. At the time named the shunting engine was at work in the yard at a point near where the Midland line branches off. By the spreading of the rails the engine was thrown off the track in a dangerous position. Mr. Joseph Henderson, the night yardman, was riding upon the side of the engine at the time and was precipitated to the ground. Fortunately he escaped from being crushed by the engine, but nevertheless his injuries are of a painful nature. The right leg near the hip was severely lacerated, as were other portions of his body. He was conveyed to his residence, Station road, soon after the accident and medical aid summoned. The injuries will take him to the hospital for some days. The engine was replaced upon the rails this afternoon, being but slightly damaged.

### Marine Notes.

Owing to the break in the Beaurharnois canal the line boat, Hamilton, and the steamer Alexandria, due here on Saturday morning, did not reach Belleville until 10 o'clock Sunday morning.

The steamer Annie Lake left last evening for Deseronto, where it will gather up a party of Americans and take them for a trip to Ontario. She will be gone two weeks.

The handsome steam yacht Cruiser, of Toronto, belonging to Mr. W. H. Pearson, of Toronto, was in the harbor yesterday, and was admired by all who saw her.

### Spain's Greatest Need.

Mr. F. P. Oliva, of Barcelona, spends his winters at Aiken, S. C. He has been caused severe pains in the back of his head. On using Electric Bitters, America's great cat Blood and Nerve Purifier, his pain soon left him. He says this grand medicine is what his country's liver and kidneys need. It purifies the blood, tones up the stomach, strengthens the nerves, and gives vigor and new life into every muscle, nerve and grain of the body. It is the best remedy you need. ### A PRIME INVESTMENT.

BOSTON & TEXAS COPPER COMPANY.

Its Property and Management.

TWELVE THOUSAND ACRES OF RICH COPPER LAND.

The Boston & Texas Copper Company have twelve thousand acres of land in North Texas near the Wichita Valley railroad. It is the richest ore in the world taken from the surface and marketed. Openings were found from time to time and copper found to extend all over the entire property. Examinations have been made by eminent geologists, chemists and engineers, including Prof. W. F. Vanniman, Prof. William Dillwyn, State Chemist of Texas; Prof. Jacob Bal, of the Philadelphia Academy of Natural Sciences; Prof. Gustavo Westman, of the Stockholm School of Mines; Thomas B. Everett, Esq., mining engineer of Colorado; and others who confirmed the state reports and practical tests of the extent and value of the deposits.

The Boston & Texas Copper Company secured the property this year and at once began active work, increasing the number of men from time to time until it now has a large number employed opening the property and taking out the ore. With the result that the farther operations extend and the more the ground is explored, the greater the deposits of copper prove to be. A section of two and a half miles long by one and a half wide has already been tested and a bank of copper ore running from five to twenty-five per cent. in copper was found to extend over the entire area and large amounts of nugget uncovered, ranging from forty to eighty per cent. pure copper. In fact, it is fast being demonstrated that this is one of the largest and most valuable properties in the world. Arrangements are now being made to lay out a town and build a railroad to the property. The people of Texas are taking a great interest in the enterprise and are giving it their cordial approval.

The management of the Boston & Texas Copper Company is in excellent hands and the interests of the stockholders are well protected. The board of directors consists of the strongest. It comprises some of the leading and best business men in New England. Hon. Emory M. Low, president of the company is a gentleman of large means and of the highest commercial standing. He operates two large factories employing several hundred hands. He has held important positions and is at present mayor of Brockton, Mass.

George W. Russell, Esq., vice-president of the company, is one of the leading property men in America, and a gentleman of large wealth and great business ability.

Col. Edward B. Robins, treasurer, is a member of the staff of the Government of Massachusetts, a position of honor and distinction. He was formerly in the wholesale dry goods business in Boston, and occupies an enviable position in the social and business affairs of New England. Col. James W. Wilson, secretary, is in the paper trade and has been associated with Mr. Russell for upwards of 30 years, and they have been the foremost manufacturers in the country. He is a first-class business man.

Major F. M. Spalding, general manager of the company, has been identified with many large business enterprises and connected with the paper trade for many years. He is a man of the highest personal standing and a superior executive officer. He is a practical business man of large experience and good judgment, and is in a large degree the backbone of the company by his untiring energy, capacity and intelligence.

Mr. Charles T. Crosby, another of the directors, is a member of the firm of Marshall & Crosby, manufacturers of Lowell, and one of the city's foremost men. He enjoys the confidence and respect of the entire community. He was selected by the people as one of the committee to investigate and examine the property on which he made a most favorable report.

Mr. Preston L. Mansfield, another of the directors, is a retired cotton goods manufacturer, and one of the leading citizens of Dedham, Mass., where he holds the position of treasurer of the J. V. Abbott Company. He is also a director and treasurer in several other large companies and is a gentleman of the highest social and business standing.

Mr. Charles O. Brightman, of New Bedford, Mass., one of the directors, is a contractor and builder and one of the leading business men, not only of that city, but of the whole state. He is connected with several successful enterprises and is an exceptionally strong man.

Mr. E. A. Smith, of Lowell, Mass., another director in the company, is one of the principal business men of that city, and one of the wealthiest men in the State. Mr. Stillman Clogg, also of Lowell, another director, is a retired merchant of high standing and large wealth.

The affairs of the company are in the best of hands, with one of the largest and best copper properties in the world behind it.

The company has as consulting and advising engineers: T. B. Everett, of Boston, Wm. S. Gale, of New Mexico, and Prof. W. F. Cummins, former State geologist of Texas. Prof. Cummins has been familiar with the property for 30 years. He is engineer in charge of the work now being done on the property, which is being actively operated by the company. Mr. C. Currier, July 28, 1899.

A limited amount of stock, par value \$10, full paid and non-assessable, is offered at par, per share. Address Boston & Texas Copper Company, 511 Tremont Building, Boston.

### RETURNED FROM KLONDIKE.

A Banker Comes Home.

Mr. Complin, of the Bank of Commerce, who went up to the Yukon last winter in connection with his branch there, has arrived home at Trenton after a forty days' journey. He called down the Yukon to St. Michael, at its mouth, and took an ocean steamer from there to Vancouver, bringing with him a million dollars' worth of gold dust. He answered to a question last night by a Globe reporter, he said:

"Business in the Yukon is brisk in spring. In winter the merchants trade themselves along by issuing notes payable on the spring wash-up to pay off his debts. A business man is under very heavy expenses, not only for high rent and wages, but also on account of great cost in getting his goods sent in. All kinds of business are represented, and you can get there the most modern style of dress. Many of the largest mercantile houses were burnt out this spring.

"I wish to emphasize so very strongly that Dawson is about the most expensive spot on earth. People down this way can't be made to believe that prices run so high there, and some set out for Dawson with a paltry thousand dollars. Twenty-five cent coins are almost unknown there, and you can buy nothing for less than fifty cents; ordinary clerks get about \$10 a day; gold workers get from \$15 to \$20; and ordinary miners on the creeks \$10 a day.

"Anywhere from fifteen to eighteen millions will be taken out of the ground this season, but the statistical output will probably be about fourteen millions. The proper kind of gold dust is called commercial dust, and is used among business men on the basis of sixteen dollars for an ounce. There is no sign of the yield playing out. No new strikes have been found, but many of the creeks, especially Hunter and Dominion, are being worked better, and are turning out well.

"The police are posted along the creeks, and after the miners 'clean up' their winter work the royalty is levied on the amount of the 'pannings' after five tons and is taken out. The miners claim that the royalty paid in the Yukon is the highest in the world.—Globe.

#### Daily Intelligence.

##### THE ABLE YOUNG MINISTER AND HIS IMMIGRATION POLICY.

The Minister of the Interior stated in the House of Commons the other day that, since July, 1897, 11,000 Galicians and 7,300 Doukhobors had been brought into Manitoba and the Northwest Territories by the Government. Mr. Sifton told Parliament that the Galicians are the best possible settlers for our prairie province. He may have stated what he believed to be true, but most assuredly facts do not bear him out in his statement. Not only are they deficient in all the moral points which make a people helpful to a country in which they settle, but, as the press of Manitoba points out, they are retarding the progress of the districts in which they settle and demoralizing the labor market in the West.

As Mr. Oliver, who brought the matter up in the House, pointed out, "the object of a proper immigration policy is not merely to get people into the country to afford more traffic for the railway companies. A proper immigration policy will consider the effect of importations of new settlers upon settlers already in the country, and also the influence the new importations are likely to have upon the moral and social status of the community."

The settlers who for years have lived and toiled in Manitoba have surely some right to be heard as to the class of neighbors which the Government is giving them. Wherever the Galicians and Doukhobors go they prevent English speaking immigrants from settling. Mr. Oliver assumed Parliament that numbers of desirable English-speaking settlers in the Edmonton district had moved away simply because they could not stand the Galicians as neighbors; and there are undoubtedly many others, there and in other settlements who, for the same reason, would like to pull up stakes and get out if they were at liberty to do so.

If Mr. Sifton has imported these undesirable settlers because he can get them without trouble, and thus pad his immigration returns and show how immensely he has added to the population of the Dominion, he has been successful, but in other respects he has committed a grave crime against his native land. The Winnipeg Morning Telegram is very severe on him, and uses the following language:

He prefers to pay the steamship agents for these people twice what he pays for Englishmen, Irishmen, or Scotchmen, and, as they are rejected by other countries receiving immigrants, the steamship agents have no difficulty in supplying Mr. Sifton all he wants of them at

that price. It is time, however, that a stop was made to this sacrifice of the interests of the settlers of this country for the advancement of Mr. Sifton's political and personal schemes. In the Mail and Empire the other day Mr. Robert Russell Smith, of Devil's Lake, Assn., had a letter dealing with the Doukhobors. Some parts of it bear very strongly on the subject of which we have been writing, and we reproduce them.

Having lived for over thirty years in the North-West, Mr. Smith says: I had about one hundred other British families of the Anglo-Saxon race who about to be turned out of our homes, where we have lived, raised families, and improved the land, and also been a source of revenue to the Dominion of Canada, because the present Administration have formed a policy of importing the alien and servile slaves of Europe (who are only one degree above the monkey in civilization, both in morals and honesty).

No one could live alongside the Doukhobors. They are ten times worse than the Galicians. They have built mud hovels, the same as they have in Russia. They will speak their own tongue, and have their own manners for the next fifty years, because they live in villages, and do not mix with the outside world. They keep all the holidays of the Greek Church. The 11th inst. (the Peter and Paul, chief apostles), they kept as a public holiday. You would think that the country was conquered by the Russian Government. But the only place that the Anglo-Saxon race wish to see them is in the hands of the foreign emigrants, as I call them, "Sifton's lambs," ought to be. I wish that Laurie Sifton and his kindred were alongside of themselves. They would find them very interesting.

Is it right for me, a British subject, to be run out of the country by foreigners? I was born a British subject, and a British subject I wish to die, like the late Sir John A. Macdonald. And, further, are our schools to be broken up, because our children cannot be mixed with the foreign element? They are far greater than we in numbers, and our children would be degraded by intercourse with the Doukhobors. So our homes will become desolate, and a crying shame to the Dominion Government. It is a shame, and a great pity when a British subject on British soil has no rights above foreigners. They respect no law of either God or man. They are draining our lakes of all the fish. They take them with large drag nets. The men and women go in the water naked and drag the nets, which have very small meshes, so that the small fry and all are destroyed, which is contrary to the law of the land. But the Government has given them exemptions because they are foreigners. Other people, British subjects, are not allowed to fish without a license. What is the good of the Government having fish hatcheries if such work goes on? It is a shame, and we have no redress, because the present gentlemen who are at Ottawa are masters, and no fishery inspector will see the law carried out. When I asked the Minister of the Interior, he said he had no Fishery Act in his possession, so he could not prosecute Doukhobors. Such is the way the law is carried.

The Doukhobors are no farmers, but they are fed by the Canadian Government through their agent, L. S. Cramer, a man getting \$1,200 a year to look after

immigrants. On July 2nd, 1899, Sunday, of all days in the week, a Government team passed my place loaded with flour and oats for the Doukhobors. The man in charge asked me where they were camped so that he could deliver the supplies. I say it is a shame that we Canadians should be taxed to feed Russian serfs.

The country round here was slightly wooded, but since the Doukhobors have been in two weeks they have changed all that and made prairie of the whole district. In a man's homestead they have cut all the timber, and they will not stop, and we have no police protection. It is impossible to fight them day and night. They are so numerous that one man among so many has no show at all. This is a cold country, and without woods to protect you in winter you cannot live in it, and if the Doukhobors intend to live here they have done an injury to the country, which, for their own good, they cannot redeem. The Government did wrong in not having an interpreter and instructor along with them.

I have taken up arms three times for the Canadian Government to fight her enemies both within and from the States, and I am willing to do the same again to run all the pauper European serf immigrants out of Canada.

There is a picture of the lamblike people Mr. Sifton has brought in to help make Canada a nation. This crying evil should be stopped at once.

#### SNAP SHOTS AT TIMELY TOPICS.

—Why don't the Globe produce a good cut of Farr, the man who voted 22 times in the pictorial past? He will be wanted at the next session of Parliament.

—Truly Mr. Tarte knew what he was talking about when he warned the people to "wait till you see us next year!" For the sake of the country's solvency it is to be hoped that there will not be a "next."

—Sir Louis Davies, who has been the chief representative of the government at the West Huron investigation, did all in his power to discredit the evidence of the witnesses, but utterly without success.

—When over forty men have sworn that they cast their ballots for the defeated candidate at a certain poll and only thirty such ballots were found in the box, we do not think anything further is necessary to prove that the election was crooked.

—The Toronto Globe says this is the growing time, and so it is. Observe how the estimates have grown in three years! The last year of Conservative rule \$38,000,000 was asked to run this country, and in this, the third year of Liberal rule, \$68,383,190, with the prospect of it being made an even \$60,000,000, is the sum demanded.

—The Government seems to have lost its head altogether, and is gone mad. It is not reconcilable with common sense that any government in its right mind would levy a tax of \$60,000,000 on less than 6,000,000 of people. This is certainly enormous extravagance, as Sir Richard Cartwright used to describe the estimates of the Conservatives, who never dreamed of collecting such a vast sum from the people.

A motion to dissolve W. T. R. Preston from the government service was defeated in the House of Commons last week. Mr. Sifton, of whose department Preston is an official, defended him. He said if Preston were proven guilty he would dismiss him, but until that time he should not interfere with the machine. If Mr. Sifton had taken steps to have the question of Preston's connection with the West Elgin election frauds investigated, he would be justified in the stand he took; but he has not done anything to find out the facts. —Breita.

—Why should it be assumed that a dog that walks backwards is mad, when no sane person would think of criticizing a crab's walk on that account?

—It is denied that Lady Randolph Churchill is to marry again. The rumor probably was started by someone who thought that a woman was trying to make a living by running a \$6-a-copy magazine needed a husband.

—Anna Gould and her husband have had the honor of entertaining the Prince of Wales on their yacht. Jay Gould did not toll and scheme in vain.

—It's becoming harder than ever to be a rascal detector. Two more of the kind have been thumped by a man whom they were shadowing in New York.

—If that Canadian yacht, Glencair, had possessed the same spirit of fairness as the Shamrock, it would have run aground, too, as soon as the Constance did.

—Another parachute performer has been killed. It is as easy a way as any other of getting rid of fools.

# SECOND TRIAL OF DREYFUS.

Court-Martial for Which the Whole World Was Waiting.

The Prisoner Walked Firmly, and Answered the Formal Questions of Presiding Officer in a Determined Voice—The Official Witnesses on Hand Adjourned—Several Secret Agents Were Present—Dreyfus' Counsel Examined.

Honors, France, Aug. 8.—The second trial by court-martial of Captain Alfred Dreyfus of the 15th Regiment of Artillery, sentenced in 1894 to life imprisonment in a fortress, after having been convicted of delivering to the agents of a foreign power documents connected with the defense of France, opened in the Lycée Henri IV, Paris, this morning. The prisoner entered the court room with a firm step. His face was pale, but his eyes were clear and his manner was dignified.

Dreyfus answered the formal questions of the president of the court, General de Pellieux, as to his name, age, etc., in a clear, determined voice. He sat facing the court, his hands resting on his knees, an apparently impassive figure.

The first opening to the defense was made by the president of the court, General de Pellieux, in an atmosphere of perfect tranquillity. The population is apparently indifferent. Only a small crowd, at the head of the prisoners, has gathered outside the entrance to the Lycée at 8 o'clock.

At 10 o'clock the president of the court, General de Pellieux, entered the court room. He was followed by the official witnesses, the secret agents, and the members of the court-martial.

The president of the court, General de Pellieux, followed by the other members of the court, walked on the stage from a room at the rear of the court, the guards presenting arms.

Bring in the Prisoner.

Immediately after Colonel Jouanet was seated he gave the order to bring in the prisoner. The prisoner, Captain Dreyfus, was escorted by the guards to the right of the stage, his hands being placed in front of him.

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation so efficacious as the one known as "Little's Cough Syrup." It never fails to afford prompt and permanent relief to the most stubborn cough, and by promoting expectoration, removes the mucus which clogs the air tubes which causes difficulty in breathing, thereby giving relief to the chest. Public notices and letters from the most eminent physicians and surgeons who find "Little's Cough Syrup" of inestimable value, as it speedsily and effectively allays irritation, and soothes the inflamed and bronchial tubes, rendering the voice clear and unobscured. It is useful in all cases of the throat, whether the trouble arises from colds, croup, or any other cause. It is a safe and reliable remedy, and is sold in all the principal cities of the world. ### CITY AND DISTRICT

Look on page 2 for additional local news.  
A very interesting column of local news will be found on our second page.

The Campbell Bros. to-day made a shipment of live hogs to Hull, Quebec.

The police answered two calls at a late hour last night, but no arrests were made.

During July and August THE INTELLIGENCER will be issued at 1 o'clock on Saturday, and the business office will be closed at 5 o'clock.

Mr. John Nicholson having again put a telephone in his lively establishment, will be pleased to have parties desiring a ring call up No. 116.

Major Hargrave, of Montreal, will conduct two nights' special meetings in the Salvation Army, Monday and Tuesday, Aug. 14th and 15th, assisted by a number of staff and field officers from the surrounding districts. Everybody welcome.

The snake killed by Mr. Sankey was not caught near Col. Ponton's residence, but on the bay shore. It is of general interest to bathers that the reptile with young was destroyed, as the latter are very numerous. The exact measurement was five and one-half feet in length. Col. Ponton and Mr. Sankey this morning caught a fine string of bass near the Bay Bridge which weighed 15 lb. 4 oz.

### Don't All Speak at Once.

The following appeared in the Toronto World to-day:  
"GENTLEMEN wishing a sweet little girl, state age, Box 741, Belleville, Ont."

As a general thing, sweet little girls, with money, don't have to advertise for husbands, but anybody who wastes postage stamps on that ad, will probably gain some experience, at all events.

### To-Night's Concert.

At Queen Victoria Park to-night the L.O.O.F. Band will render the following programme:  
March—"The Royal Legion" Sousa  
Overture—"Just One Night" L. O. de Wit  
Selection—"Hope Celestial" Beethoven  
Waltz—"El Capitan" Strauss  
Schottische—"Little Gipsy" Strauss  
March—"The Gipsy King" Strauss  
Horn Solo—"The Gipsy King" Strauss  
Medley—"The Gipsy King" Strauss

GOD SAVE THE QUEEN. (Quartet)  
The two-step, "American Fireman," was received by Mr. Riggs this morning from Mr. Paul Lalonde, who is on tour with Field & Lalonde.

### WHAT PEOPLE ARE SAYING

That one thing Belleville needs is a better sewerage system.  
That rumors of an approaching general election are "in the air."  
That the recent Ontario Senatorship is to be given to Mr. A. T. Wood, of Hamilton.

That the Oldfellows are setting a good example to other societies this afternoon.  
That some of the Yankee newspaper men are working very earnestly here. The idea of Sir Wilfrid Laing going to the banquet and make a speech is preposterous.

That some of the Belleville people who went to Rochester on the excursion failed to come back.

### SAID TO HAVE CONFESSED

John W. Anderson, Formerly of This City.

Charged With Being the Man Who Stole \$52,000 from the Tolsons Bank in Winnipeg Nearly a Year Ago.

Winnipeg, Aug. 9.—Only one topic is discussed on the street here, and that is the recovery yesterday of \$50,000 of the \$52,000 stolen from Tolsons Bank nearly a year ago.

Anderson Under Arrest.  
John W. Anderson, formerly a junior in the bank, was arrested at 4:30 last evening charged with being the robber. Whether or not he had an accomplice is a mystery, but he had to get through three examinations and a long interview, and he got there most successfully. The theory that the robbery was the work of someone in the bank has at last finally been confirmed.

A Detective's Find.  
It is said that the money was found buried, and the location was discovered as a result of detective work done by a man named Davis, a young fellow who claims to have been in contact with the famous Holmes murder case. Davis has been advised by his solicitors to keep mum until the trial, and he follows instructions.

Working Since January.  
Davis came here about January last, and for a couple of months did not find much clue, but about March he became suspicious of Anderson. Immediately after the robbery, he learned that the bank's employ, the inspector saying that there were no prospects of salaries being raised on account of the loss in the robbery, and Anderson, on the plea that he could not live on his salary, went to work for the McGill company, and was employed there when arrested yesterday afternoon. He took the arrest coolly and ate a hearty supper at the jail.

Now the Detective Worked.  
Davis went to work in Jerry Robinson's drugstore as a fancy window dresser, and was apparently an ordinary day laborer. He immediately learned that Anderson's good graces, and the proposition is that he had Anderson up to the point of saying where the money was, and the understanding that they were to engage in some enterprise together. Anderson knew he had been shrewdly deceived. Immediately after the robbery, and had given more than one detective a long talk in the country, but just for amusement's sake and having a laugh at the expense of the "eyes that never sleep."

\$10,000 Recovered.  
The reward for recovery of the money is \$10,000. The bank was hit last night, and Manager Cole was in his office, but he was not talking to anybody. If W. Willis, of Houghton, had come for Davis, says there is sufficient evidence to convict Anderson.

Manager Cole of Iron, Ont., Monday evening, when he learned from a brother Chinaman who is working for him that the toll had been robbed of \$20,000, among which was a dime, and a small palook and key stolen. The case was reported to the police, with the result that a boy named Delbert Smith was arrested, accused with the offence. At the court this morning Smith admitted that he took the lock off the counter on Monday morning, but denied taking any money or even being at the toll. A young lad named Watts testified that Smith bought two dimes of ice cream at a restaurant, and paid for it with an American dime, which he alleged he found. Another lad named George Howell advised that Smith told him he had taken a dime from the Chinaman and also taken a lock.

The Magistrate was inclined to send Smith to the Reformatory, this being his second offence of larceny, but at the request of his mother judgment was reserved until to-morrow morning.

### LOST IN THE SWAMP.

A Little Chap Strays Away Near Gilbert's Mills, P. E. Co.

On Monday evening a five year old son of Mr. J. H. Norton, who resides near Gilbert's Mills in Prince Edward County, in company with two other lads, went to the large swamp, nearby in search of Mr. Norton's cows. Two lads in some way became separated and young Norton was lost. He was not missed until the other lads arrived with the cows. A party was organized and although diligent search was made that night and all day yesterday up to a late hour last night no trace of the missing boy was found. The parents and friends are much alarmed and fear that harm has befallen him. Mr. Henry Renfrew, of this city, is a grandparent of the lad.

### That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their machines as cures for the headache. They make your head pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by J. S. McKee, Druggist.

### Happy Reunion.

During the past two weeks the Old River homestead on the banks of the Moira River was the scene of a happy reunion, when brothers and sisters came home to spend a short vacation with their mother and father, and to recall many reminiscences of their youthful days. Among those present were Mr. and Mrs. Gilbert Jones, of Montreal; Mr. and Mrs. D. W. Massey, of City Bay, St. Stephen, County of Chateaufort; Mr. and Mrs. Allan Hay, of Stirling, with their mother, and Mr. and Mrs. Wilson Reid; and Mr. and Mrs. Reid and their families.

### Group Quickly Cured.

Mr. J. S. McKee, Pleasant, Vancouver, B. C., writes: "I have never been cured of a disease, it is Griliff's Mental Liniment for group. We have frequently administered it to our children, even the baby, and we know it is a safe cure to cure in a few minutes. No one should be without it. 25 cents at druggists. Sold by D. M. Waters, cor. Front and Bridge streets."

### Interested in Cement.

While Mr. Vickers, of Philadelphia, was here on his late visit, he went to Crookton and met Messrs. Quinlan and Robinson, who took him to view their mill lake. Mr. Vickers' visit of inspection was in the interest of one of his companies, who proposes to enter into the manufacture of cement, for which the district in question is admirably adapted.

### ALL HEADACHES

from whatever cause cured in half an hour by HOFFMAN HEADACHE CURE. 10 cents and 25 cents at all druggists.

### LOOKING FOR A SITE.

Representative of Toronto Capitalists in the City.

If Arrangements can be made to Suit Them Will Probably Locate in Belleville.

Mr. J. Van Sommer, Jr., of Toronto, representing a Company, composed of Toronto capitalists, which is now being organized in that City, was in Belleville this morning looking for a site for smelting works which the aforesaid company proposes to erect.

Mr. Van Sommer had just returned from a visit to the mines at Coo Hill and Wallbridge, and was very favorably impressed with what he saw there. Particularly was this the case at Wallbridge, where, as Mr. Van Sommer says, "The deeper they go the better they find the ore." The ore which is being mined at the Wallbridge mine would be, Mr. Van Sommer says, suitable for the company.

In case a smelter is erected in this vicinity, the proprietors of the Wallbridge mine offer to supply the company with three carloads of ore per day.

Mr. Van Sommer, in conversation with THE INTELLIGENCER, expressed himself as favorably impressed with Belleville, but expressed some doubts as to sufficient depth of water being found here for his purpose, though, he said, he had been assured that with the up-to-date men who are now at the head of municipal affairs he might be reassured that every encouragement in reason would be accorded to him.

Mr. Van Sommer left on the 10 o'clock train to join his family, who are at Wellington.

"Au revoir," said he, as he started for his train, "I will return in September, when our Council meets, and if I find that the citizens of Belleville are at all inclined to meet us half way, and other conditions shape themselves as favorably as I hope and believe they will, my company will not need to look any farther for a site for the smelting works."

### ROBBED THE CHINAMAN

A Youthful Culprit With a Taste For Ice Cream.

On Sunday Pong Jim Lee, a well-known Chinese dryman in this City, went to Pictou and did not return until Monday evening, when he learned from a brother Chinaman who is working for him that the toll had been robbed of \$20,000, among which was a dime, and a small palook and key stolen. The case was reported to the police, with the result that a boy named Delbert Smith was arrested, accused with the offence. ### LOST IN THE SWAMP.

A Little Chap Strays Away Near Gilbert's Mills, P. E. Co.

On Monday evening a five year old son of Mr. J. H. Norton, who resides near Gilbert's Mills in Prince Edward County, in company with two other lads, went to the large swamp, nearby in search of Mr. Norton's cows. Two lads in some way became separated and young Norton was lost. He was not missed until the other lads arrived with the cows. A party was organized and although diligent search was made that night and all day yesterday up to a late hour last night no trace of the missing boy was found. The parents and friends are much alarmed and fear that harm has befallen him. Mr. Henry Renfrew, of this city, is a grandparent of the lad.

### That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their machines as cures for the headache. They make your head pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by J. S. McKee, Druggist.

### Happy Reunion.

During the past two weeks the Old River homestead on the banks of the Moira River was the scene of a happy reunion, when brothers and sisters came home to spend a short vacation with their mother and father, and to recall many reminiscences of their youthful days. Among those present were Mr. and Mrs. Gilbert Jones, of Montreal; Mr. and Mrs. D. W. Massey, of City Bay, St. Stephen, County of Chateaufort; Mr. and Mrs. Allan Hay, of Stirling, with their mother, and Mr. and Mrs. Wilson Reid; and Mr. and Mrs. Reid and their families.

### Group Quickly Cured.

Mr. J. S. McKee, Pleasant, Vancouver, B. C., writes: "I have never been cured of a disease, it is Griliff's Mental Liniment for group. We have frequently administered it to our children, even the baby, and we know it is a safe cure to cure in a few minutes. No one should be without it. 25 cents at druggists. Sold by D. M. Waters, cor. Front and Bridge streets."

### Interested in Cement.

While Mr. Vickers, of Philadelphia, was here on his late visit, he went to Crookton and met Messrs. Quinlan and Robinson, who took him to view their mill lake. Mr. Vickers' visit of inspection was in the interest of one of his companies, who proposes to enter into the manufacture of cement, for which the district in question is admirably adapted.

### ANOTHER RAILWAY WRECK.

Canada Atlantic Express Left the Track

And Seven Passengers Are Said to Be Killed—A Bad Smash-Up.

(By Associated Press Today)  
MONTREAL, Aug. 9.—The Canada Atlantic express, bound from Montreal to Ottawa, jumped the track at St. Polycarpe about 11:30 this morning. The locomotive and three cars left the track and seven passengers are reported killed and ten wounded.

The report has reached Ottawa that two people were killed and six injured in the Canada Atlantic wreck at St. Polycarpe this morning. The train jumped the track and the engine, baggage car and second-class coach overturned. Fireman Geo. McCraig, of Ottawa East, was killed, and also an unknown passenger. Engineer Robert Orr, of Ottawa, is among the injured.

TO-MORROW  
"THE BROWNIES."

A Crowded House Will Witness the Beautiful Production.

See the funny Italian organ grinder and his trick bear, the will Italian Brownies, the poet Brownie, and all his other odd characters in "The Brownies" in Fairland at the Grand Opera House and Friday nights, with a Saturday matinee. Prices for the night performance are only 15, 25, 30 and 50c. The big show, in which over 100 Belleville boys and girls appear, will be one of the very best seen here this season, and nearly everybody is going. Be sure to see it.

### SWITCH LEFT OPEN.

And the Engine Went Through Two Brick Walls and Was Ditched.

(By Associated Press to-day.)  
TWEED, Ont. Aug. 9.—Owing to the carelessness of some of the employees of the Bay of Quinte Railway here, who left the switch open last night, the incoming passenger train from Kingston ran through a brick wall at a high rate of speed, went into the engine shed and through two brick walls at end of shed and into the ditch on the other side, wrecking the engine considerably and completely destroying both wells. No one injured.

### Light Weight Top Coats.

Because the warm weather is still with us is no reason why you should refrain from buying a top coat. We have a beautiful line of light weight coats in the fashionable short lengths and loose fitting, just the thing to slip on cool evenings and raw days, perfectly made in latest styles. Not only equal but superior to so called ten dollar coats. Our price \$8.00.—QUICK & ROBERTSON.

### "Heard With Pleasure."

Dr. H. Winch addressed a meeting of the different Leagues of Pictou a few weeks ago "The Forward Movement for Mission." In the school room of the First Methodist Church. At the close of the following resolution was moved by Rev. J. W. Julliffe and seconded by Rev. J. R. Reid: That we have heard with pleasure the interesting address delivered by Dr. H. Winch, and promise to do all we can as members of the church to advance this important scheme, "The Forward Movement for Mission."

### An Entertaining Firm.

There are few men more wide awake and enterprising than Mr. J. S. McKee, who carries on his line for his many customers. He now has the agency for Dr. King's New Life Pills, which cures Consumption, Coughs and Colds. This is the wonderful remedy that is now produced so much excitement all over the country, by its many startling cures. It absolutely cures permanently, Bronchitis, Asthma, and all affections of the Throat, Chest and Lungs. You can test it before buying, by calling at our store, or by mail. Only 25 cents. Free, or regular size for 50c and \$1.00. Guaranteed to cure or price refunded.

### Claims the Goods.

Two large boxes at the police station this morning were the object of much curiosity. Both were heavily laden with merchandise and were addressed to a well-known citizen, having been sent from Rochester, N. Y. The reason they are at the station is that the husband of the sender refused them upon arrival here, claiming that they were his goods. The wife, at present in Rochester, and sent the goods to a relative here. The outcome of the transaction will be watched with much interest.

### A Frightful Blunder

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal Cuts, Old Sores, Fever, Itch, Eczema, Boils, Felons, Corns, All Skin Eruptions. Best Cure for Eczema. Only 25 cents. Guaranteed. Sold by J. S. McKee, Druggist.

### Wedding Bells.

A quiet wedding took place last night at the residence of Mr. Adam Pictou, Canon road, when his daughter, Miss Emma, was married to Mr. Geo. S. Powell, of this City. Rev. Mr. Stauden, Curate of Christ Church, performed the ceremony. The bride was assisted by her sister, Miss Eliza Pictou, and Mr. Lewis Pictou was best man. After partaking of a wedding supper the young couple repaired to their future home on Brown street. With their many friends who join in congratulations.

### Ninety Per Cent.

Of the people are afflicted with some form of leprosy and this causes a variety of diseases. The reason why Hood's Sarsaparilla cures when all others fail is found in the fact that it eventually expels the humor, Scrofula, salt rheum, boils and all eruptions are permanently cured by this great medicine.

### Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

Only An Artist

Can truly appreciate the importance of proper picture framing and its relation to the value of the picture. Days and weeks may be spent in perfecting every detail, in securing a faithful reproduction of every shade and color, but if it is improperly framed, how flat and unartistic will be the "tout ensemble" while if the picture is intelligently treated, it enhances the value of the work at least twenty-five per cent.

Just to show how our efforts in this department have been appreciated by the artists of our City, we might mention the fact that at an art exhibit recently held here, over SEVENTY-FIVE per cent of the framed pictures exhibited were framed by us. Pretty good evidence, we should say, of what we are able to do. Bring your pictures to us and have them framed properly. If we cannot please you, we will not ask or expect your work.

In the Various Educational Institutions in This City and the Surrounding Districts.

Toronto, Aug. 12.—The reports of the Boards of Examiners in connection with the High school and matriculation examinations have been issued. Below will be found the names of the successful candidates in the examinations of Forms I. and II. The results of the examinations of Forms III. and IV., and of the commercial and specialist commercial diplomas, will be published early next week. The marks of unsuccessful candidates will be sent within ten days to the principals of High schools or Public school inspectors. No marks will be sent to give candidates by the department. Certificate of successful candidates will be sent to principals and inspectors about the 1st of September.  
Unsuccessful candidates should not appeal until they have consulted the High School principal after receiving their marks. Appeals to be entertained must be made to the Deputy Minister before the 20th of September.  
Regarding the certificates awarded for the examination in Form II. subjects, candidates should observe the following: Part I. implies that a Form II. part I. certificate has been awarded. A candidate having obtained 50 per cent. on total results will be passing in each subject.  
Matriculation (4) implies that a part I. matriculation certificate, covering grammar, arithmetic, history, and physics, has been awarded. This certificate, together with that for matriculation (4) has no qualifying value for either junior leaving or senior leaving standing as they represent examinations in which candidates have not obtained the required total of 50 per cent.  
In the case of certain candidates whose names appear under "matriculation (3)" and who are eligible to write under the special provisions of former regulations, it will be necessary to furnish evidence (date and centre of previous examination) that they are entitled to this privilege before certificates will be awarded.

## THE BOMBHELL FOR 10-DAY

Gen. Mercier to Produce His Proofs of Dreyfus' Guilt

A Dramatic Scene Anticipated by the Anti-Dreyfusards. While the Dreyfusards say he will leave Court history unimpaired after the Cross Examination by Mattheo Labord and Demange and Dreyfus himself—Col. Henry the Traitor.

Rennes, Aug. 12.—The Dreyfus court-martial concluded its secret sessions at 9 o'clock yesterday morning, when M. Parolles of the Foreign Office completed his explanations of the secret dossier. The court will meet again at 8.50 this morning.

Saturday's public sessions will be a terrible field day, probably the most important and exciting day of the whole trial, as General Mercier and M. Cadore have been elected to give their testimony then. The first witness will be Lieut.-Col. Du Louchet Verhes, French military attaché in Berlin at the time of the arrest of Dreyfus. His evidence, it is expected, will be most disposed of, and then General Mercier will be called. A dramatic scene is anticipated by the anti-Dreyfusards, who will expect him to throw a bombshell and confound the accused once for all. His words: "I have complete proof of the guilt of Dreyfus," is remembered, and both sides are waiting for him to prove his statements.

Dreyfus to Cross-Examine.

The Dreyfusards say that his testimony will be to show that by a report and Demange, and that he will leave the court utterly discredited. Captain Dreyfus will have the right to question him, and it is expected that the latter's cross-examination of Mercier will prove the climax of the whole proceedings.

Former President Cadore-Farley will follow, if possible, the same day, but it is doubtful whether his examination will be concluded before the court adjourns until Monday. There will be no session on Tuesday, that being Assumption Day.

Col. Henry the Real Traitor.

London, Aug. 12.—The Times says: "We are in a position to state that, in addition to communications of eight value mentioned in the dossier, more than thirty other communications have been furnished to the German attaché in Paris, Col. Schwarzkoppen, by the French attaché in Berlin, Lieut.-Col. Du Louchet Verhes, acting as intermediary for the German attaché in Paris, Col. Schwarzkoppen. One of these communications contained detailed information relative to the general plan of mobilization for the French army. The proceeds of this traffic were divided between Schwarzkoppen and Lieut.-Col. Verhes. The latter was known to be the traitor for several months before the trial, and it is probable that the power most directly concerned, namely, the German government, received information to this effect early in 1897."

## OBITUARY.

### MISS ANN RAY.

At 6:30 this morning the spirit of Mrs. Ann Ray took its flight to the God who gave it. The deceased, considering her advanced age, nearly 80 years, was quite active until Thursday, the 3rd inst., when she was stricken with paralysis, which caused her demise. For the past five years Mrs. Ray has been a resident of the City, at 10 Dundas street. For many years she resided with her son James, at Melrose, Tynesburgh township. The deceased was born in the County of Fermanagh, Ireland, in the year 1819, where she resided until grown up to wedlock. She was a lady whose name was Miss Annie Glass, her maiden name was Miss Annie Glass, her husband was a prominent gentleman of the name of Glass, and a great scholar, and service of this church being frequently held at his residence. Mrs. Ray has been a devoted member of the Methodist Church for many years. She was a lady whom to know was to admire, and her death will be sincerely regretted. A large number of friends and relatives are left to mourn the loss of a devoted and loving mother. They are Messrs. A. Ry, druggist, this City; James and Irvine, of Melrose; Samuel, of Glanville, B. G.; Mrs. M. A. Wood, of this City; Mrs. John Tweedie, of Thurlow, and Mrs. Ault, of Melrose. The remains were this afternoon taken to the residence of Mr. John Ry, Melrose, from whence the funeral will take place at 1 o'clock on Monday to the Methodist church, the interment taking place at Spananville.

### Wedding Bells.

Montreal Star.—A pretty wedding took place near Barrie, Ont., yesterday, when Mr. Arthur Greenwood of Toronto, and Miss Annie Watt were united in marriage. The bride was Miss Aggie Watt, daughter of Mr. Greenwood, of Hamilton, performing the ceremony. The guests included relatives from Toronto, Hamilton, Buffalo and Belleville. Among the gifts to the bride were \$25 in gold from her father, \$50 in gold from the groom's adopted father, Mr. Patterson, Belleville, and Mrs. Greenwood, and will reside in Toronto.

## ANOTHER ADDITION TO THE TAXES.

In the fiscal year 1899 the Conservatives collected in Customs taxes \$19,833,279.

For 1897 the customs taxes were \$22,157,783.

For 1898—the year which closed on the 30th June last—the customs taxes were \$20,157,930.

The figures climb up thus: 1895 (Conservative).....\$19,833,279 1896 (Liberal).....22,157,783 1897 (Liberal).....20,157,930

Here is an increase in Customs taxes of \$3,324,601.

It is equivalent to \$1 per head, or 25¢ per family.

But this kind of economy is only just commencing.

## HOW THE FARMER IS TREATED.

The only man who is really submitted to active foreign competition is the farmer.

Last year free trade in corn brought 19,970,000 bushels of corn from the United States to compete with the Canadian corn.

There were the total importations for corn. The man who is hurt by the monopoly which the Government has created is the farmer. Mr. Fiddling pretended that he was going to make oil cheap, and instead of doing so introduced the Standard Oil octopus, and raised the price two cents per gallon.

## PROSPERITY IN ENGLAND.

From every quarter come tales of the wonderful prosperity which the British Empire is now enjoying.

The enormous clearings of the banks and the wonderful productiveness of the revenues illustrate the progress of British home trade.

As a trade barometer the revenue of the Imperial exchequer indicates astonishing energy.

With the exception of Crown lands, every source of income shows marked expansion.

The last quarter's revenue points to free expenditure by every class of society.

The working class, as well as of the wealthy, is shown by the expansion of £44,000 in customs, and of nearly £270,000 in the excise.

In the aggregate £3,000,000 of receipts of the Imperial exchequer for the last quarter expanded no less than £1,833,000, or nearly 7 per cent, far exceeding the expectations of Sir Michael Hicks-Beach.

The woolen trade has revived from the depression which followed the practical closing of the American market.

British woolen goods, which have been in trade been so well occupied, and now, the price of houses has risen to figures never before attained.

Although shipbuilding is not active at the end of last year, the tonnage under construction is abnormally heavy, and a slight contraction in the number of ships ordered is not surprising, when considered in the light of the higher price of iron.

The demand for iron is largely in excess of the supply, and will long remain so.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hamilton, Mo., lately had a wonderful recovery from a frightful attack of cholera.

He says: "I was taken with Typhoid fever, and I was so weak that I could not even sit up in bed. Nothing helped me. I expected to soon die of Cholera, when I heard of Dr. King's New Discovery. I used it, and now I am well and strong. I can't say too much in its praise. This marvelous medicine is the most reliable remedy in the world for all Throat and Lung Trouble. Every bottle 75 cents and \$1.00. Total bottles free at J. S. McKinnon's Drug store, Belleville, Ont."

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation so effective as compare with Bick's Anti-Consumptive Syrup. It never fails to afford prompt and permanent relief. It removes all mucus, and soothes the inflamed parts. It immediately soothes the most troublesome cough, and by prompt expectoration, removes the mucus which stops up the air tubes with mucus, and difficulty in breathing, thereby affords relief to that depressing tightness experienced in the chest. For all coughs and colds, find Bick's Anti-Consumptive Syrup of inestimable value, as it soothes and effectually always all irritations, soothes the inflamed and troubled throat, and gives power to the voice. It is a most valuable remedy for all children, and a child has taken cold, has a cough or hoarse voice, give the Syrup according to directions. It is easier to be good than great—there is no exception.

And Monday Was an Anti-Dreyfus Day in the Court-Martial.

The Shooting of M. Labori Took All Life out of the Proceedings—His President Cast-Perfor Confirmed—His Merit and Denounced His Story—A Day of Up and Down in Which the Prisoner Practically Marked Time.

Reunions. Aug. 15.—The shooting of M. Labori, leading witness in the Dreyfus case, took all the life out of the proceedings, marking the session, and, but for the sympathy that attempt to make the prisoner practically marked time. The shooting of M. When the court-martial was resumed, General Mercier was confronted with M. Labori, the former witness in the Dreyfus case, who had just been shot. The shooting of M. Labori, leading witness in the Dreyfus case, took all the life out of the proceedings, marking the session, and, but for the sympathy that attempt to make the prisoner practically marked time.

When General Mercier was recalled, in reply to the president of the court, he reiterated his belief that Major Count Esterhazy, in spite of the latter's own declaration, was not the author of the letter which the witness claimed was written on tracing paper and was found in an envelope.

The president asked M. Casimir-Perier to explain the circumstances of the confession Dreyfus is alleged to have made to Captain Lebrun-Renaud. M. Casimir-Perier persisted in his statement of Saturday that he had never received any such confession from Dreyfus.

Regarding General Mercier's declaration on Saturday last, on the witness stand, M. Casimir-Perier declared that General Mercier had no right whatever to intervene in a diplomatic conference. He would have presented an interference in the case of a diplomatic conference with the Minister, and I declare that the impression I derived from that conversation was one of complete calm.

General Mercier replied that he went to the Elysée Palace as Minister of War. He recalled that General de Holsheidt had a difficulty in regard to the orders received. M. Donaghe seized upon this declaration, and insisted that General Mercier was not a Frenchman, but a German.

### A WONDERFUL ENTERTAINMENT.

Norris Bros' Show was Most Admirable in Every Respect.

There were large crowds present at the two performances of the above company yesterday, and to say that the show pleased everybody is putting it mildly. The programme opened by a procession of over two hundred trained animals, dressed in gay trappings. Fargo, the smallest performing elephant ever seen here, went through some entertaining feats under the direction of Master Charles Norris, who is certainly the smallest elephant trainer ever seen in this part of the world. The chariot, monkey and hurdle races were exciting. Perhaps the most meritorious feature in the programme was the drill performed by eight pretty little horses, which executed various movements with beautiful precision. The performance closed with the animal fire department, in which dogs and monkeys acted as firemen, and used miniature hooks, ladders, hose and fire engine. The funny antics of the clown and his goat "Archibald" were a source of great delight to the little folk. Should Norris Bros. visit Belleville again they may be sure of doing good business.

### Light Weight Top Coats.

### OBITUARY.

**MRS. HENRY VANDERWATER.**  
At an early hour this morning death claimed as a victim a well known and much esteemed lady, namely, Mrs. Henry Vandewater, who, with her husband resided on Moira st., near the Marchmont House. The deceased had been ill for some time, but her sufferings with Christian fortitude. Mrs. Vandewater, who was in her 72nd year, was born in the Township of Sidney, near the Centenary Church, her maiden name being Miss Margaret Marshall. For a number of years she had been a consistent member of the Methodist Church. Since her residence in the City, some 12 years, she had been a faithful attendant at Bridge st. Church. All her life had been spent in Sidney and this City. She leaves, in addition to her husband, a family of five children, four sons and one daughter. The sons are Milton, Maxwell and Charles, who reside in Sidney, and John, of Poughkeepsie, N.Y., who is a member of the State Assembly. The daughter, Hephzibah, who lives at Poughkeepsie, N.Y. Through her death Mr. Vandewater leaves a devoted wife and the children a kind and loving mother. The funeral will take place at 2 o'clock on Friday afternoon.

### Hear Them Bells A-Ringing.

If you don't hear them now you will in a very few days. That boy of yours must start to school; how about his clothes? Have you got him provided with a good suit? Bring your boy to the store for half and talk to us. Maybe you can get some pointers about clothing economy. Pay you to come and see, anyway.

### THEY CAME FROM KINGSTON.

Two Dead Beasts Who Ran Up Bills and Left Without Paying Them.

Some three weeks ago two Jews, hailing from the Limestone City, came to town and rented a house. They announced their intention of starting a junk shop, and on the strength of being smooth talkers, succeeded in getting into the confidence of certain people and running up bills for groceries, horse feed, etc. They must have found out that the fell here are not a good one for their particular business, for they have left the City, and the worst of it is that in a fit of absent-mindedness, they forgot to discharge their obligations before they took their departure. They neglected to pay what quarter of Kingston they came from. Perhaps it was the penitentiary.

### Volcanic Eruptions

Are grand, but skin eruptions rob life of joy. Bucken's Arskin Salve cures them; it is Old Hominy and Fever Sore, Ulcers, Blisters, Felties, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains, Blisters, Cuts on the face. Drives out Pain and Aches. Only 25c a box. Cure guaranteed. Sold by J. S. McKeown, druggist.

### Proud of His Crop.

Mr. Stephen Badgley, of the 1st con. of Thurlow, on Tuesday afternoon showed us some peas which he thinks are worthy of pride. He has some vines 12 feet long, and the pods well filled. He has also some peas within an inch or two of six feet in height. Mr. Badgley says there will be a wonderful crop in this section of the country, though some of the roots have suffered through lack of rain.

### Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, Liver, Kidneys and Bowels are out of order. They are found where the system is healthy. They are found where the power of brain and body. Only 25c a box. J. S. McKeown's Drug Store.

### A Suspended Sentence.

Frederick Woodcock, convicted of the larceny of a log of lumber from a car at the C.P.R. station at Tweed, was this morning given a suspended sentence of six months in the Central Prison. This was owing to his youth, his first offence and other parties being concerned in the theft. P. J. McKeown for the Crown and Wm. Garrow for the defendant.

### PONTON'S ACQUITTAL IS ASSURED.

His Lawyer, Mr. E. Guss Porter, Makes This Statement.

Evidence Damaged By Flight—He Believes That the Escape of Pare and Holden Will Have an Effect Upon Their Testimony.

Toronto News.—Mr. E. Guss Porter, of Belleville, the well known counsel for William Ponton, the alleged Napanee bank robber, was a guest at the Rosin House this morning.

When asked by a News reporter if the defence would have anything new to offer at the next trial, on September 19, Mr. Porter said that so far as he knew the defence would have no very new evidence to offer. He was confident that the case for the defence was strong enough to secure Billy Ponton's acquittal.

Mr. Porter thought that the evidence of the Crown's star witnesses, Pare and Holden, would be somewhat damaged by their flight from Napanee jail. He was uncertain as to the course the Crown intended to pursue at the next trial in regard to whether or not Pare and Holden would be placed in the witness box, but he discounted the statement of the Crown Attorney that Pare had consented to a change of venue and that his trial would also come off at Cobourg on the 19th prox.

### What a Kingston Paper Thinks.

Kingston Times: Ponton's trial will take place next month, as Pare will be tried at the same time. The only evidence will be that given by Pare and Holden, and acquittal or conviction will rest entirely upon what the jury will take of the story. In case Ponton and Pare are acquitted it will then be in order for Mackie's friends to make a move to secure his release. If a jury will not believe Pare and Holden's evidence against Ponton, why should any reliability be placed in the testimony of the same individuals when applied to Mackie.

### Organ Recital.

Mr. V. P. Hunt will have the assistance on Friday night, at his first Organ recital in Bridge st. Church, of Miss Mabel De Guere, of Toronto, leading soprano in the church choir, and Mr. E. A. Shaughlin, of the Church of Our Saviour, Chicago. This recital will prove a great treat and will no doubt be largely attended. Admission free. Silver collection.

Quietly Married.

A quiet wedding took place this morning at St. John's Church. The contracting parties were Mr. Ernest Dunnett and Miss Laura Dunnett, both of the Township of Thurlow. Rev. Rural Dean Rogers, rector of the church, performed the ceremony. The bride was assisted by her sister, Miss Kivier, and Mr. I. Crawford assisted the groom. After the ceremony the young couple drove to their home in the Front of Thurlow.

### Police Notes

The Chief has in his possession 15 cents which a woman left yesterday evening in payment of some vegetables. The woman was found from him, he being unable to find out where the purchaser resided.

The box of cigars, stolen on Saturday last by Teddie Folly, belonged to Mr. J. A. Boyd, who has a business place at Allenville, Prince Edward County.

#### Shamrock a Copy of Canada.

London Outlook.—The Shamrock left for her transatlantic voyage on Thursday under keel rig. There is nothing extraordinary in her design, except the fact that every ounce of lead has been hung in such a manner that it will give her wonderful stability. In design she is simply a replica of the Canada, who won the lake championship three years ago, or the Saint, the best twenty five ever designed or built.

Mr. Fife, etc., considers the Canada the best boat of her size he has ever designed, and in support of this he has only to look at her performance. Shamrock, if she defeats the Columbia on any point of sailing, will do so in reaching, and unless she beats her very decisively on this point she will have no chance whatever in the matches for the Cup.

#### Australians in England.

London, Aug. 15.—In the fifth and last cricket match between Australia and England, begun at Kensington Oval yesterday, England, in the first innings to-day, were all out for 576 runs.

The score of the English cricketers beats the previous record in a test match, namely, 551 runs, scored by Australia in 1884.

At the close of play to-day the Australians, in their first innings, had scored 220 runs for five wickets down.

#### Like the Man who Fell Out of a Balloon

The sailing yacht, Vera, owned by Mr. R. H. Fenwick, of this City, yesterday completed in the yacht race at Toronto, but was not timed. The Globe, in referring to her, says:—The Vera of Belleville also started, but being in cruising rig was never a competitor.

Five members of the Forest and Stream Club yesterday afternoon competed in a trap shooting competition for the Corby prize. The scores made were: R. S. Bell, 11; G. J. Johnson, 10; A. Aikens to each, A. C. Mott and W. Abbott, 8 each.

"Young Griffs," the noted Australian boxer, whose real name is Albert Griffiths, is dying in a hospital, Ill, in New York.

He was a wonderfully clever boxer when he came to America, but was seldom so except when in jail and only his remarkable constitution enabled him to last this long in the battle with John Barleycorn.

At Waltham, Mass., yesterday, Tom Linton rode 25 miles in 42.41.5 behind motor pace. Continuing for 60 minutes he covered 34 miles, 1,633 yards, beating Taylor's record.

In answer to an inquiry as to whether horses entered for the trotting and pacing races at the Exhibition can wear hoppers, Manager Hill said that they could. Entries for these events close to-day at the offices, 82 King st., east, Toronto.

A large number were in attendance at the baseball match this afternoon between the Dukes and Maple Leaf Clubs.

#### No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her beauty. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wreathed expression on her face. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys, to purify the blood. It gives strong nerve, bright eyes, smooth, velvety skin, rich complexion. It will make poor looking, faded women (4c a bottle) look lovely. Only 25c a bottle at J. S. McKeown's Drug Store.

#### DAVIS A DETECTIVE.

His Lawyer States That He Acted Under Instructions.

Winnipeg, Aug. 15.—The lawyer for Davis, the detective in the Molsons Bank robbery case, stated to-day that Davis is connected with a Chicago detective agency. The preliminary hearing of Anderson will take place to-morrow.

#### Charged With Larceny.

County Constable A. Wilson, of Tweed, brought to the City to-day a prisoner named George Sova, who has been committed for trial on the charge of larceny.

In a recent case, stated to-day that Davis is connected with a Chicago detective agency. The preliminary hearing of Anderson will take place to-morrow.

#### They Got a Good One.

Mr. Lester Riggs, youngest son of Mr. W. B. Riggs, has secured a position in Norris Bros' band and left last evening with that organization. Lester will be much missed from the I.O.O.F. band, as he was a clever young musician, his playing being much appreciated.

#### DIED.

VANDERWATER.—In Belleville, on Wednesday, August 10th, 1899, Miss HELEN VANDERWATER, aged 71 years and 3 months.

Funeral Friday afternoon, Aug. 18th, at 2 o'clock, from the family residence, Moira st., opposite the Marchmont House.

Organ Recital. Miss Mabel De Guerra, of Toronto, and Mr. E. A. Shanklin, of Chicago, will sing at Mr. Hunt's Organ Recital in Bridge St. Church to night. A very attractive programme will be rendered.

WHAT PEOPLE ARE SAYING

That Belleville has been very lucky this summer in the matter of fires. While nearly every near-by place has had its serious conflagration, we have escaped nearly scot free.

That that excellent institution, the Mechanics Institute, does not get the credit and support it deserves.

That if anybody steps in the hole in the sidewalk on Queen st., near George, and injures himself, he will have grounds for damages against the City.

That French "fancies," as exemplified in the Dreyfus case, is only a figure of speech.

That people who leak the City by law by letting their lawn sprinklers run all night should at least see that they do not play on the sidewalk. Last night a gentleman who lives on Bridge street and was going home at 11:30 had to take the middle of the street to avoid a bath. Verbum sat.

That the City water at present is not exactly the pleasant beverage that pure "Adams' ale" ought to be. If the Waterworks officials could by any means make it more palatable they would earn the gratitude of their customers.

That the men who are blasting on Coleman st. are altogether too careless in their operations. They set off a blast this morning about 8 o'clock, near Cooper's mill, and some stones went nearly to the Upper ledge.

ALL HEADACHES from whatever cause cured in half an hour by HOPKINS' HEADACHE POWDER. 10 cents and 25 cents at all druggists.

TRIED TO KILL THE CONDUCTOR FOUND DEAD IN BED.

Bullet Passed Within a Few Inches of His Head.

Murder Coolly Planned—Supposed to Have Been the Act of a Tramp, But No Explanation as to Where He Got the Rifle.

Lindsay, Ont., Aug. 17. —Mr. James Greaves, Conductor of the G.T.R. train running daily between here and Cobourg, had a narrow escape from being shot while passing Wilson's siding, three miles this side of Cobourg, last night. It is in Greaves' custom to ascertain at the different points along the line on the up trip the number of cars to be taken on the down trip in the morning, and when passing Wilson's siding he was looking out of the closed window conversing with a man who he heard the report of a rifle and the frame of the car through which he was looking crashed in. On examination it was found that the bullet passed through the frame and out of an open window on the other side of the coach, passing within a few inches of the conductor's head. Everything points to it being a deliberate attempt on Mr. Greaves' life, and yet he himself cannot ascertain as to where the rifle was fired from. It was done by a tramp who the conductor compelled to pay his fare when stealing a ride a few days ago.

Light Weight Top Coats. Because the warm weather is still with us is no reason why you should refrain from buying a top coat. We have a beautiful line of whipcord coats in the fashionable "sart" lengths and loose fitting, just the thing to slip on cool evenings and raw days, perfectly made in latest styles. Not only equal but superior to so called ten dollar coats. Our price \$8.00. —QUICK & ROBERTSON.

THE TEMPTATION WAS STRONG.

And Mrs. James Noyes Broke the Eighth Commandment.

On Wednesday last Mrs. James Noyes, of Stone st., was engaged to do some washing for a rather aged maiden lady, Miss Ann Dorcy, who lives at Mr. John Taugher's, corner of Ridley and Geddes st. Among the articles given her to wash was an undershirt, and in a pocket of the skirt, was a pocket-book, containing a deposit receipt for \$800 and \$72 in bills.

After the woman had gone Miss D. O., who it appears was in bed at the time, thought of the purse being in the skirt and told the Taugher family about it.

Mrs. Noyes denied all knowledge of the money, so there was nothing left for Mr. D. O. but to recourse to law. Yesterday Officer Hayes, armed with a search warrant, went to the Noyes residence, and after a three hours search, found the \$72 between two posts in the wood shed. Mrs. Noyes thereupon confessed that she had deposited the tale, had torn up the pocket book in the stove at Mr. Taugher's the same day.

It was a sad little group which appeared before Magistrate Flinn this morning. With tears streaming down her face the poor woman pleaded for mercy. As the money was all recovered Miss D. O. did not desire to punish and taking into consideration that the woman had six children and had always borne a good character, the Magistrate took pity on her and allowed her to go with a suspended sentence of six months in the Central.

School Suits. They must have them. They must be strong, too, and you'd like them neat. Suppose you try us. We have sound reason to think we can give you a neater fit and more wear than you get anywhere for equal price. Those who have tried us are our customers and you'll find the crowd at McKenry's.

Our New Goods. For Fall are coming in fast and we can give you a good assortment of fine footwear to choose from. You will find our prices right. —VERMILYEA & SON.

Not Coming Home. A report in some manner became current yesterday that Mr. Jos. D. Clarke, who is in the Klondike, was on route home. We learn from a member of the family that there is no foundation for the report. Mr. Clarke is still in the gold country and is doing well.

Are You Going From Home? A great many people are making arrangements just now for trips out of town. The fall fair will soon be on and the usual crowds will be sure to come. How about your clothes? You want a nice suit and light overcoat anyway, and you may as well get them now and make your trip looking respectable. The Oak Hall has all their new fall suits and overcoats ready.

Chronic Rheumatism Cured. Mr. Charles E. Bond, the leading druggist of Belleville, B. C., says: "I have every reason to believe Griffiths' Mental Liniment will cure Chronic Rheumatism. I am a customer and my wife has been troubled with bottles of Mental Liniment have entirely cured her. It always gives the best of satisfaction to my customers." Sold by D. M. Waters, Cor. Front and Bridge sts.

Marine Notes. The tug Beaver, belonging to Mr. J. Bonar, which has been engaged at Cardigan for some time, left today for Cornwall.

The steamer Toronto, of the Richelieu Navigation Company, was yesterday detained for some time at Alexandria Bay, owing to a fog.

Fair Evidence for Everybody. No one can doubt the great merit of Polson's Nervine, for it has been placed on the market for over 100 years, just to give you the opportunity of testing its wonderful power over all kinds of pain. This is the best evidence of its efficacy, for every person can try for themselves. Polson's Nervine is a positive (it cannot fail) cure for cramps, headache, cold, neuritis, and the host of pains that flesh is heir to. Good to take good to take. It is sold in any drug store and by a 10 cent sample bottle. Large bottles 25 cents.

Annual Sales: 2,000,000 Bottles.

Mr. W. G. Armstrong of Lickard district of Niagara, has been appointed clerk of the 7th Division Court of that district.

The \$400 lost in the Provincial Treasury Department has not yet been found. A clerk lost it on Thursday. There seems to be a parliamentary thief.

A letter received by the Secretary of the Navy from Admiral Dewey indicates definitely that he will arrive in New York between Sept. 25 and 30.

Lyle Stevens of Chatham, the lad shot by Willie Houston, a companion, died Monday. He succumbed to his wounds late Thursday afternoon.

Twelve officers and men were taken into the U.S. station at Gosport, Ont., on Thursday night by prying open a window. They did not seem to be anything.

Charles Hurt, a negro, who attempted to assault Mrs. Stephen Battle, a widow, on Thursday was taken from the Brantley Jail by a mob and shot to death.

Miss Ellen McDougall of Manitowick, 33 years old, who was injured in the St. George accident a week ago, is dead. This makes the tenth fatality from that accident.

A cartload containing six persons was precipitated into White River at Washington on Thursday night as it was being driven aboard a ferryboat, and all were drowned.

An advance of three cents per pound on meat has taken place in New York. It is stated that the butchers are paying \$30 or \$35 more for each steer than four months ago.

Lieut. Governor Sir Frederick Walker, who visited General Sir William Pringle Blair as commander of the British troops in South Africa, started on Thursday for the Cape.

At Hamilton on Thursday afternoon Mr. John Farrelly or Mr. George Van Frey was arrested on a charge of bigamy. It is alleged that the woman has two husbands living.

The Conservatives of Pictou County, N.S., met in convention at Pictou on Thursday afternoon, and re-nominated Sir Charles Hibbert Tupper and A. C. Bell for the House of Commons.

A collection of Indian relics, including some of the Indian specimens, has been secured for the Provincial Archaeological Museum. The collection comprises articles military, domestic and social.

By an almost unanimous vote the delegates of the International Typographical Union on Thursday adopted a constitutional amendment, increasing the union's regular monthly dues ten cents per capita.

The residence of Rev. Dr. Lyle, Hamilton, was broken into on Thursday evening and ransacked. P. C. Fuller discovered the robbery. As the family are in Chatham, the whereabouts of the robbery cannot be ascertained.

The 1st Colorado Regiment of Volunteers has arrived home from the campaign in the Philippines. The regiment, commanded by Colonel Meyer, returns with 40 officers and 921 men, about 250 less than the number who sailed from San Francisco last year.

A large proportion of northern New York, including the Counties of Jefferson, St. Lawrence and Lewis, is being swept by fierce forest fires, that have already destroyed thousands of dollars' worth of valuable timber land, and threatens to do much serious damage, unless quenched by a heavy rain.

Toronto is being flooded with counterfeit one-dollar bills, so local bankers say. The counterfeit is a very poor imitation, and is said to be manufactured by some American firm, and bears the date "June 1, 1898, G. S. S. Samples of the same dollar bills have been detected in various parts of the province.

Mr. William Bann Kennedy, Q.C., a justice of the Supreme Court of Justice, and a number of prominent Hamilton lawyers, are passengers on board the Dominion Line steamer "New England." They will attend the meeting of the American Bar Association, to be held at Buffalo, N.Y., before which body Justice Kennedy will read a paper Aug. 29.

The directors of the Hotelbank Bank have decided to issue a loan of \$100,000 to the capital stock. The figure was formerly \$1,350,000, which is, by the recent decision of the directors, increased to \$1,450,000. It is understood that the new stock will be distributed among the present shareholders at the rate of one share to five, at 150. The stock sold yesterday at 150.

A Toronto syndicate on Thursday bought the bicycle interests of the Massey-Harris Co., of L. Lorier Co., Toronto Junction; Gould Bicycle Co., Hamilton; and the Wheeland Valve Co., of Cambridge. Application for a charter for a company with \$50,000.00 capital will be made at once to the Ontario Government, while the Dominion Government will also be asked for a special charter. Mr. W. E. H. Massey will be the president of the new concern.

Not to be Deceived Twice. This man needed to take no chance! He is an eastern drummer and was visiting his friends in Colorado. The western friends are not for the cleverness of the atmosphere, which lends an appearance of proximity to remote objects, and the easterner, who is a confident man, told him, which apparently covered up only a few miles away, said he was going to walk over to his home before dinner.

It was in reality 10 miles distant, but his friends allowed the tenderfoot to get on his start, then set out in a cartage to overtake him.

They came upon him ten miles out. He was standing on the banks of an irrigated river.

"Hello, there, George, what are you up to?" called one of his friends.

"I'm going to swim this river," answered the man of samples.

"That's no river. It's only a ditch four feet wide. Why don't you jump over?" "Well, maybe it is," answered George doubtfully, "but I thought that mountain over there was only about two miles off, and I was n't going to take any chances with that stream."

A Russian superstition. Russian girls are to be seen in their prospect of matrimony in the following way: A number of them take off their faces and conceal them in a basket of corn. A boy then brought in and invited to be the first to take the corn. The owner of the corn, whoever it will be the first to be married.

## WILL THERE BE AN INVESTIGATION?

In an interview with Mr. J. P. Warr-Neve, published in the Mail and Empire, we note he said in reply to a question as to the advisability of having the conduct of the election referred to the Committee on Privileges and Elections, that he was not sure how such a motion would be received by the present Government. "The party," said he, "is rather committed, by resolution of its own, against investigation by committee of election frauds. A few years ago when Hudson was elected in West Hastings by methods which we thought demanded investigation by the Committee on Privileges and Elections, a motion was made accordingly by the Opposition. To that resolution Sir Oliver Mowat's Government offered a long amendment setting up the theory, fallacious of course, that Parliament had divided itself of jurisdiction in respect of such matters and conferred it upon the election courts. How in the face of that precedent the Ontario Government will likely act, I would not venture to say. But certain it is, a refusal to investigate after that has already been made public will not be tolerated by honest Liberals throughout the province."

It should read "East," not "West Hastings." It is quite true that a committee was refused by Mowat and his supporters, though Mr. Hudson made the charges in Parliament direct, upon his own responsibility as a member of the Legislature, that there had been ballot stuffing at the East Hastings election, and produced affidavits of electors, showing that more ballots had been marked for him than there were in the ballot box when the votes were counted. "What the author of the 'evidence of Christianity' did, it may well be inferred his 'wicked partner' will not hesitate to repeat. Still let us hope for better things. The rascals and all political villains of the 'bucklers of the nation' were not then so well known. Now that they have been fully exposed, in the case of West Elgin, will Mr. Hardy and his followers dare refuse to allow the most searching investigation into the manner in which the by-elections were carried? If such an opportunity is refused, every honest elector should revolt and the most condign punishment follow."

## CHAMPERTY.

This is a crime among a certain class of lawyers, that, it is feared, is too frequently practiced, but not often detected and punished; probably from the fact that it is not generally known among litigants that for a lawyer to buy a suit is illegal and punishable by stripping the gown from the legal vulture who practices it. A telegram from Victoria, B.C., of Aug. 15th says:—

"Ex-Attorney General Martin, before the Benchers' Law society, today, admitted the facts alleged in the case of cham-

party charged against him by the defendant in the case of *Crooks v. Nichol*, in which Mr. Martin took the case for half the money to be recovered and a lease of the quarry involved. The benchers suspended him during the first week in October, and in the meantime he will appeal to the full court as to whether chambery is a crime in this province."

## SOAP AND TOWEL ECONOMIST.

Men like James McMillen, Esq., M.P. for North Wellington, who engaged a reporter for himself by delving into the pages of the Auditor-General's Report to find out how much it cost each department of the Conservative Government for wash and towels, and to learn how many knives house annually, must feel, if they have any feeling, the unenviable and humiliating position in which they find themselves in supporting a Government, the most reckless and extravagant "that has been."

For instance, Mr. McMillen in 1896, when speaking for the party of which he is to distinguish himself a member, exclaimed in conflict and exulting tones:—

"If I do not give you reciprocity in 'three years and reduce the expenditure to 'thirty-five million dollars, turn us out, gentlemen, turn us out.'"

This same gentleman is now the defendant of a Government that asks, for \$75,000,000, but within a few dollars of \$75,000,000. Yes, Jim, the people should ever make politics better by hysterics in any shape or form. The whole history of the world shows that the wrong done by the mere sentimentalists and more easily than any other kind of wrong."

There is a moral in the above, and a strong, for Canadian voters. Every voter in the Dominion knows how the

country is being plundered by the party in power—out of the pockets of their own friends they are being consumed. Ever since they came into power extravagance and corruption have gone hand in hand, and, as the straightened and honest men of the country point out, if people do not use the remedy which is at their disposal they can never expect things to grow better. When they are marking their ballots at the next general election let them think of the \$75,000,000 squandered, the carnal of corruption which has been rampant at the elections, the organization which stuck at nothing, fair or foul, to gain its ends; and then, if they want clean and honest government, and vote as their consciences dictate, they will turn Tasso and his army of phlegmen out and keep them out.

## EPIDEMICS OF CRIME.

Students of human nature and sociology long ago contended that crime, like disease, quite often became epidemic. It was pointed out in London some years ago that just as sure as any unusual suicide or murder came to light, almost immediately another would follow. One man in New York, a few years ago, committed suicide in a way never before heard of, and in less than a week he had four imitators. In one of Dickens' books he makes one of his characters, a swindling banker, commit suicide by opening one of his veins in a bath tub, and within a year of the publication of the book there had been a dozen suicides throughout England who crossed the dark river by that route. One doesn't have to look away from Canada to find instances of such kind. Note the bank robberies which have been transpiring lately. Ever since the Napanee bank robbery, which may be said to have started the epidemic, reports have been coming to hand from all parts of Canada of banks being robbed. The publicity given to these matters in a certain portion of the press is to a large extent responsible for it. People with an unusually large morbid and aversive streak in their natures read all accounts of such crimes with avidity. Every particular of how the "job" was done is given in the yellow journals with a perfection of detail worthy of a better cause, and a spirit of emulation is aroused in the breast of many a man who perhaps, but for that, might have lived out his allotted days in the order of respectability and died an honest man—in deed, at all events.

A nighty agent in the press, either for good or bad. Perhaps a question will arise in some minds as to whether or not right itself some time, but at present the evil of "yellow journalism" is one of the problems of the day.

## SNAP SHOTS AT TIMELY TOPICS.

—On the average, wheat assays more gold to the ton than the gravel of any creek in the Yukon.

—In English courts it is the practice to abuse the plaintiff's attorney when there is no defence. In France the new practice is to shoot the plaintiff's attorney.

—Lady Louise, Countess of Mountbatten, is probably the only woman alive who can boast that she danced at the famous Brussels ball, and heard the roar of the guns at Waterloo. She also heard the "sound of revelry by night" described by Byron in *Childe Harold*, and, in fact, was herself one of the revellers, even if she were only 12 years old.

—The great dearth of dancing men is at present exercising the minds of London society hostesses. The acquin gown has, it seems, much to answer for in respect to this, and loud are the complaints of men who have found that jotted gowns worn by a partner are anything but conducive to the preservation of the gloss and perfect condition of a well groomed man's evening suit. A newspaper, chafed by devoted to sartorial matters, declares that some corsages are as uncomfortable and as damaging to ensembles as a thorn bush or bundle of thistles, and adds "if the mediocrities will agree to put some buffer between a man's wrists and coat when he dances, perchance the dearth of dancing men in London may not be too true."

## Married in Kingston.

On Wednesday evening, at Kingston, Miss Margaret Bruce Eby, of that city, was married to Mr. Ernest W. Ferguson, of Mountain View, P. E. Co. Rev. T. C. Brown, Pastor of the Brock at, Methodist Church, performed the ceremony. The bride was attired in white organdie over white silk, trimmed with lace and white ribbons. She carried a bouquet of white carnations. Her sister, Miss Mabel Eby, acted as bridesmaid. Miss was dressed in figured organdie over white silk. Mr. Daniel Eby acted as best man. Mr. and Mrs. Ferguson have taken up their residence at Mountain View.

## A Correction.

It was stated in yesterday's INTELLIGENCER that it was the Pastor of the Baptist Church who were doing the caroling blaring on Cleburn street. This was not correct. It seems that the men are employed by the C. P. R. In reference to the supposed damage to the water main, we are informed by the officials of the Waterworks that the water which has made its appearance there, was supposed to come from a break in the main, in reality escapes from the Moira at sewer.

Col. Smith Left Calicut and Attacked Entrenched Enemy.

Frequent Runners by American Democrats the Philippines. The Intense Heat Caused the U.S. Soldiers Much Suffering. The Insurgents Drive Out After a Sharp Skirmish. More Troops to Be Sent Forward. A Great Army.

Manila, Aug. 18.—The 12th Infantry, under Col. Smith, left Calicut at sunrise yesterday and advanced up the railway. The insurgents were found well entrenched in front of the town. At a distance of 1,500 yards the Filipinos opened fire.

The enemy sent heavy volleys against the whole American line. Most of their shooting, as usual, was high, but they concentrated their heaviest fire down the track upon the artillery. Col. Smith kept the whole line moving rapidly with frequent rushes. Unable to stand continuous volleys, the Filipinos abandoned the trenches and retreated through the town northward.

The intense heat caused much suffering among the Americans. A reporter of The Manila Times, who was accompanying General Smith, was shot in the head, probably fatally. One American officer received a slight wound in the face.

Insurgent Attack Repelled. Eight hundred insurgents attacked Angeles yesterday morning, but the 12th Regiment drove them into the mountains. Three detached locomotives were captured. None of the American troops was injured. The insurgent loss is not known.

## THE NEW WEEKLY.

The Mail and Empire of Toronto Enlarge Their Edition.

The last issue of The Weekly Mail and Empire contains its own funeral notice. It is, in truth, the last issue of the weekly in its present form. Next week the new Weekly Mail and Empire will appear. It will comprise three right-page sections, and will be published by the Mail and Empire, and will absorb the Farm and Fireside, strengthening it with a wider and more varied treatment of agricultural and live stock topics, retaining, however, the woman's department, by "Fit," the critical talks by "Flaneur," its legal questions answered by Barrister Edward Meek, and its popular children's page. Especial merit is promised for the illustrated story and serial stories, as being worthy features of the literary section.

## Ten More Regiments.

Washington, Aug. 18.—An order has been issued directing that ten additional regiments of infantry volunteers be organized for service in the Philippines. The regiments will be numbered from 83 to 92.

A Policy of Superior Force. The organization of the ten new regiments will give General Otis a fighting force of 63,451 men, and, in addition to this force, it is proposed to increase the hospital corps in the Philippines to 5,000 and to increase the number of medical officers so that General Otis will have an army of 68,451 men.

The policy of the War Department," said Secretary Root yesterday, "is to furnish General Otis with all the troops and supplies that he can use, and which are necessary to wind up the insurrection in the Philippines in the shortest possible time."

Mr. Hunt's Organ Recital Was a Great Success.

Lovers of High-Class Sacred Music Had a Treat at Bridge St. Last Night.

It was a large gathering of music lovers which assembled at Bridge St. Church last night to hear Professor Hunt's first organ recital in Belleville. The Professor is to be congratulated, first of all, on the change he has made in the time of the recitals, which in Professor Dingle's time, used to be held in the afternoon. The evening is a much more appropriate time, and, judging by the size of his audience, the innovation is a success. We understand that his next recital will be the first of a series to be held this fall and winter. The Professor set at a high standard last night. If he continues to do it for a season he will deserve the heartfelt thanks of all lovers of high-class sacred music in our City. As will be seen from the programme given below, Professor Hunt chose for the numbers of his opening recital selections from composers who are universally recognized as masters of organ composition. In nearly everything he played he seemed thoroughly at home, showing, in some of his interpretations, flashes of real genius. His first selection, Gounod's "Marche Militaire," went with martial swing and fire, and perhaps no greater contrast could have been shown than was between Gounod's inspiring music and the "Berceuse" of Spinnay, the dreamy melody of which was interpreted in a manner wonderfully sweet. All the Professor's selections were played in a masterly style, particularly his "William Tell" selection and Sullivan's "Triumphal March," but undoubtedly his best number was Bistaf's "Palmira's Song of Hope," a perfect little gem, with an amiable movement and a tender and charming theme, with a most harmonious elogiato, which, by the way, fairly bristled with technical difficulties. Excellent play no terrors for the gifted organist, and he showed the hand of a master in his rendition. In his Mendelssohn selection he was perhaps rather disappointed. The tempo and harmony were perfect, but the interpretation was not marked by the same firm grasp as that shown in the other numbers. To the vocalist who assisted in the recital hardly too much praise can be given. Miss Mabel De Guerre, soprano soloist, of Richmond St. Methodist Church, Toronto, sang three songs, and established herself a firm favorite with our citizens. This lady is a singer of refinement and cultivation. Her voice is not particularly strong, but sweet and clear and true, and she sings with perfect enunciation. In her second number, "I Will Extol Thee," Miss De Guerre showed the range and flexibility of her voice, but perhaps her most beautiful performance was in her last selection, "Heaven is My Home," sang to the air of "Robin Hood." It was beautifully rendered, and, in fact, the accompaniment with singular delicacy and feeling.

## WHAT PEOPLE ARE SAYING

That Belleville has too many streets this year when the sound of the mason's trowel and the carpenter's hammer is not heard.

That some who attended last night's Organ Recital should have known better than to disturb those near them with their continual laughing and talking, thus preventing some from enjoying the music, especially when some of the disturbers very often address congregations.

That if people would talk more about the weather and less about their neighbors' shortcomings it would be better for all parties concerned.

That the beautiful ballad, "Just as the Sun Went Down," is rapidly becoming a household word.

That it is to be hoped the Methodists of Belleville will soon take some action in regard to the old Dundas st. baying ground.

That if there is one thing more than another Belleville people should be proud of it is our educational institutions.

Narrow Escape of a Gentleman Well-Known in Belleville.

Napoleon Beaver: His Honor Judge Wilkinson came nearly being a victim of escaping gas Wednesday afternoon, but for the timely help of Mr. G. L. Hinch. The Judge's sense of smell is not very acute, and on entering his room at 10:30 in the morning he did not detect the odor of escaping gas, and proceeded with the business he had in hand. Later he felt decidedly unwell and laid down on a couch in the office, but resumed his work in a short time. He did not go home at noon to lunch. About 7:30 in the evening Mr. Hinch, the efficient caretaker, looked into the Judge's office, and seeing him sitting in his chair, excused himself and stepped out. Fancifully he detected a strange look in the Judge's face, and wondering that he was at work at so late an hour, he returned and found the Judge seated in his chair in a semi-unconscious state. He applied water to his face, and carried him to his own parlor across the corridor. His Honor shortly after recovered sufficiently to walk to his home assisted by Mr. Hinch, and Dr. Vrooman was summoned, and administered restoratives suited to the case. Wednesday morning Mr. Hinch detected a strong smell of gas in the Judge's chambers, and notified the gas company. The escape of gas was later found to have come from the leaking of a rubber tube which is connected with a lamp on the Judge's desk. This had become quite rotten, and in all probability the Judge's foot came in contact with it and completely severed the tube from the gas pipe, and thus the gas was not overpowered with the deadly odor. The escape was a most fortunate one.

Tale of a Marriage That Did Not Come Off.

Napoleon Beaver: On Friday morning last George R. Baldeck, who has a wife and family in Belleville, and a woman giving the name of Mary Dingman, presented themselves to Rev. Dr. Crothers for marriage. George had the necessary license and ring to make the marriage secure. Mr. Lavi Kelley happened on the scene just then and informed the Dr. that both parties were already married. The lady in the case being the wife of Mr. Peter Curle, well-known about here. They both pleaded guilty to this charge, but they were not living with their partners, thinking this a sufficient excuse for the marriage. A letter from Belleville to the Chief Justice Babcock is not regarded as being entirely false.

## Think About It.

The man who buys his clothing without thinking at times makes a mistake. Do you know that a store like Oak Hall, with its large capital, paying cash for everything bought, is in a position to sell you clothing at very close prices. Another thing, Oak Hall is not controlled by any firm, but has the market of the world to select from. It is worth thinking about.

## Darkest Russia

Will be seen at the Opera House on Thursday night. The company that they are promoted will demonstrate by its work that it is of unusual excellence and ability. The play itself has been exploited all over the country for six years past, and it will have the advantage of special and elaborate scenery, all of which is carried by the organization.

## Fair Evidence for Everybody.

No one can doubt the great merit of Peck's Newville, for it has been placed on the market at 10c per bottle. Just to give you the opportunity of testing its wonderful power over a kind of pain. This is not the case of the ordinary medicine, for every person can try for themselves. Peck's Newville is a positive (it cannot fail) cure for cramps, headache, cold, neuritis, and the host of pains that flesh is heir to. Good to take, good to rub on. Go to any drug store and buy a 10-cent sample bottle. Large bottles 25c each.

## Accident on the G. T. R.

An accident happened at Newtonville on the line of the G. T. R. this morning which fortunately did not result seriously. A freight train was proceeding eastward hauled by one of the large engines when one of the flue burst, disintegrating the engine and injuring the engineer and fireman. Both were badly scalded about the face and neck. The engineer's name is Scanlan and the fireman's, Adams, both residing at York. Brakeman Sleming was thrown from the train and suffered a dislocation of the shoulder.

## JOURBET'S CANTING APPEAL

General Recounts the History of the Dutch in South Africa.

He is Sorry Gold Was Found, Because That Has Led to Bitter Oppression by the British.—The Appeal of the Uitlanders He Stigmatizes as a False Document and Blames Rhodes and Chamberlain for the Trouble.

London, Aug. 19.—The Cape Town correspondent of The Daily Mail says: "General Jourbet's appeal, which will reach the Queen to-day (Saturday), is a ranting pamphlet, reciting the history of the Dutch in South Africa. He laments the discovery of gold in the Transvaal, which has led, he says, to British oppression of the Boers, and he stigmatizes the recent appeal of the Uitlanders as a false document, asserting that the wrongdoers of the vile scheme are Cecil Rhodes and Joseph H. Chamberlain, whom he accuses of having been the principal instigators in the Boer war, he reminds the Queen of the 'Jack the Ripper' crimes in London."

Cape Town, Aug. 19.—Military contingents are daily leaving here and other cities for the Transvaal frontier, and recruiting is actively proceeding. One of Kruger's Troubles. Lorenzo Marques, Delagoa Bay, Aug. 19.—The Government of the South African Republic is making strenuous efforts to persuade the local Portuguese authorities to permit the passage of ammunition. President Kruger has personally wired a request to that effect, stating that a mutiny brewed with Great Britain is secured. Two thousand cases of arms are due to arrive here today on the German steamer Koonig from Hamburg July 5.

## Resolved So Reply.

Pretoria, Aug. 19.—The Government has received no reply to its despatch to the authorities at Lorenzo Marques regarding the stoppage of a consignment of stores now in Delagoa Bay. Cable instructions have been sent to Dr. Leyds, plenipotentiary of the South African Republic to the Portuguese states, to proceed to Lisbon and make representations to the Portuguese Government with regard to the landing of the war materials.

## BOY CONVICTS ESCAPE.

Seven Lads Skipped Out From the Penitentiary Reformatory.

Pentang, Aug. 19.—On Tuesday night seven boys escaped from the Boys' Reformatory here. Since then a posse of constables have been in search of them. Two were captured on Wednesday on Christian Island. Last night three more were brought back from Barilo, where they were run down by Constable Landman, a champion of miles. The other three in prison garb are still at large. These boys and others numbering 30 escaped for four days last May. The boys got over the high fence on Tuesday night by a ladder formed by standing on one another's shoulders.

Paris, Aug. 19.—M. Guerin devoted last night to a speech on the National Defence Group had waited on him.

## WELSH COLLIERY HORROR.

Twenty-Five Men Believed to Have Lost Their Lives—Many Injured.

London, Aug. 19.—By an explosion yesterday in the Llanelli colliery, in Glamorgan, Wales, 18 persons were killed and 60 others are still in danger. It is now learned that the explosion occurred during the night shift, when there were only 50 men in the mine. As the dynamite is sent the list of dead is believed to number 35, and it is understood all the living have been rescued. Thousands of persons have gathered around the mouth of the mine. Many persons were injured by the explosion.

## A Fire in His Side.

Uxbridge, Ont., Aug. 19.—What may prove to be a fatal accident happened to Thomas Armstrong, son of John Armstrong, 7th con. West, near here, Thursday evening. The young man, who is 18 years of age, was crossing grain, when a neighbor boy named A. Millman shot off a rifle to frighten some girls nearby. The ball entered young Armstrong's side and lodged there. The bullet was removed, but the doctors do not give much hope for the recovery of the young man.

## FIREMEN IN NEWFOUNDLAND.

Channel, Nfld., Aug. 19.—The party of 12 firemen have been through part of the interior of the island under escort of Chief Engineer Massey. Their impressions of Newfoundland as a place for an agricultural settlement of 50,000 to 60,000 Finlanders, are unfavorable. They will proceed forthwith through Canada to British Columbia, and may visit the United States before returning home.

HAINES &amp; LOCKETT.

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation or medicine so simple and so effective as the Anti-Consumptive Syrup. It never fails to afford prompt and permanent relief. It removes all mucus and soothes the inflamed parts. It immediately soothes the most troublesome cough, and by its expectorant action, removes the mucus which plugs up the air tubes which causes difficulty in breathing, thereby giving relief to that depressing, flimsy, experienced in the chest. Public speakers and singers will find Bickel's Anti-Consumptive Syrup of inestimable value, as it speedsily and naturally allays all irritation and huskiness in the throat and bronchial tubes, and gives power to the vocal cords, restoring the voice clear and sonorous. If parents wish to save the lives of their children, and themselves from much anxiety, trouble and expense, let them procure a bottle of Bickel's Anti-Consumptive Syrup, and whenever a child has taken cold, has a cough or hoarse voice, give the Syrup according to directions. It is easier to be good than to cough or hoarse in opposition.

## YESTERDAY'S CHURCH SERVICES.

Brief Reports of the Various Services at our Different Churches.

### ST. THOMAS' CHURCH.

At the above church yesterday morning the service was taken by two visiting clergymen, Rev. Jas. Todd, of Ottawa, and Rev. George Worrall, of Philadelphia, formerly of this City. Rev. Mr. Worrall was the preacher, and took as his text the 14th verse of the first epistle to the Corinthians.  
But the natural man receiveth not the spirit of God, for they are foolishness unto him, neither can he know them, because they are spiritually discerned.  
The preacher showed the utter impossibility of agnostics and un-Christian men understanding the Word of God, for, as dead men were not fit to criticize music or blind men mistepicures of sculpture or painting, neither were men who had not their spiritual eyes opened able to understand and appreciate the teachings of the Bible. The sermon was full of sound, practical thoughts, and was listened to with much attention.

### ST. THOMAS' CHURCH.

At the above church the usual service was held, but on account of the heat they were greatly shortened. The morning service was held at 10 o'clock, and the evening service at 7 o'clock. Rev. Mr. Quinn gave a five minute address in place of a sermon and in the evening Rev. Canon Burke gave a short address.

### TABERNACLE.

At this place of worship yesterday morning, Mr. Collyer, evangelist, conducted the morning services, preaching a practical sermon and rendered appropriate hymns with guitar accompaniment. In the evening Rev. N. Hill, pastor, occupied the pulpit.

### BRIDGE ST.

"A gracious promise," and "Will ye also go away?" were the subjects discussed at Bridge street church yesterday by the pastor, Rev. O. E. McIntyre. Both subjects were ably treated by the divine. The congregations were good at both services.

### BAPTIST CHURCH.

In the absence of the pastor of this church yesterday, the pulpit in the morning was occupied by the Rev. A. Campbell and in the evening by Rev. John Wilson, Secretary of the Y.M.C.A. Both gentlemen preached acceptable sermons.

### REVEREND AVE.

The pastor, Rev. J. J. Rice occupied the pulpit at both services yesterday. In the morning his subject was "Harvesting," and in the evening "So near and yet so far."

### ST. JOHN'S CHURCH.

Rev. Rural Dean Bogert occupied the pulpit at both services yesterday. The sermon was omitted at the evening service.

### HOLLOWAY ST.

Rev. O. W. Watch, the pastor, was absent yesterday and in the morning Rev. Mr. Martin preached, and in the evening a former student of Albert College.

### Light Weight Top Coats.

Because the warm weather is still with us is no reason why you should refrain from buying a top coat. We have a beautiful line of whips and coats in the "Jahook" style, short lengths and loose fitting, just the thing to slip on cool evenings and raw days, perfectly made in latest styles. Not only equal but superior to so-called ten dollar coats. Our price \$8.03—QUICK & ROBERTSON.

### Obituary.

WM. THOS. LAKE.

Wm. Thos. Lake, known as Dr. Lake, died on Saturday at the residence of his brother, Mr. J. C. Lake, as the result of a paralytic stroke which he received a few days ago. The deceased was born at Baldwinville, N. Y., 68 years ago. In the early part of his life he was engaged in the milling trade, working in that capacity at Warden, Dal'nores, Ont., Stone Mills at Glenora and other places. For a number of years he conducted the Jahook Hotel at Pictou. For the past four years he has resided in Belleville, doing business on the market square. Deceased was twice married, but both wives preceded him to the grave. His first wife was Miss Ellen McGuire, of Pictou, his second being Miss McGuire, of the same place. Two sons and four daughters survive, two of the latter being by the second wife. All the children reside in the United States. The funeral took place yesterday afternoon from the residence of Mr. J. C. Lake to the cemetery. Services were conducted at the house by Rev. O. E. McIntyre, pastor of Bridge st. Methodist Church.

### WHAT PEOPLE ARE SAYING

Oh my, it's hot.

That everybody doesn't tell the truth or else their thermometer was a good deal off.

That, owing to the hot weather, the congregations were very small at the churches yesterday.

That when the "divine" healer comes the doctors will find him.

That the bakers of this City should charge a uniform price for the staff of life, and not "rob Peter to pay Paul."

That people who break laws and then weep and make indignation speeches when they are caught show neither good sense nor good judgment.

That if Dreyfus was being tried in Canada no grand jury would find a true bill against him. It may safely be said that if he were tried in Belleville he would probably get a suspended sentence.

That as next Thursday is the last dance concert, some effort should be made to make it a gala evening. Give a prize for the best decorated table in the hall, or something of the kind. The concert has been given unlimited enjoyment to many of our citizens, and a little celebration on the last night would be a fitting termination to a very successful season.

Red Hot From The Gun

### Always the Best Clothing.

When the Oak Hall made the statement "that we sell the best clothing at the lowest prices" you pretty nearly know that it is right. We have been doing business so long in Belleville that it is hardly necessary any more to remind you of these facts. Yet we are always ready to make our claims good against all comers. Our reputation is good, but we never try to work on it.

### VERY HOT WEATHER.

Much Inconvenience Caused by the High Temperature.

"I never felt the heat so much in my life." That was a general expression with many of our citizens yesterday. Saturday was warm, but yesterday was, by general consent, the most trying day we have experienced this year. Everybody who had a thermometer was willing to stake his reputation for veracity upon it, and it was wonderful what a divergence there was between the records. Yesterday morning shortly before noon, one thermometer registered 103 in the shade; at 4 o'clock in the afternoon the same thermometer registered 101, and at 8 o'clock 88; so that a conservative estimate of yesterday's highest temperature may fairly be put at close to 100. The hot weather militated against the attendance at the various places of worship, the congregations being very small. One church had a congregation of yesterday morning, and one of our principal churches had but one person at the altar at the evening service. In nearly all the city pulpits prayers were offered up for rain, which was very badly needed.

### Darkest Russia.

Which will be seen at the Opera House on Thursday night, is the longest lived of any of the many plays that have been written about the Russian revolution. It is a story of dramatic strength, yet exceedingly rich in its own element, for there is an abundance of good, substantial laughter evoked by this farce. The company is said to be excellent and embraces among others the clever young leading man, Mr. Arthur Fortier, Katherine Willard, Harry D. Byrd, Kate Harrison and Alfa Parry. All the scenery for the entire production is carried by the organization.

Plain now open at Rigg's.

### Working Night and Day

The busiest and mightiest little thing that ever was made in Erie, King's New Life Pills. Every pill is a sugar coated globe of health, that changes weakness into strength, builds up the system, restores mental power, and gives energy, health and vitality to the body. Only 25c per box. Sold by J. S. McKewen.

### Police Draw Their Swords.

In the Avenue de Tallabou there was a fierce conflict. The police had to draw their swords against the Anarchists, who assailed them with stones. Four policemen were wounded, two so seriously that they had to be taken to the hospital.

350 PERSONS INJURED.

Police Statistics Show the Rioting to Have Been Serious.

Paris, Aug. 21.—The prefecture of police gives the following statistics of yesterday's rioting: Three hundred and eighty persons were injured, 360 sent to the hospital, 36 police agents were wounded, besides Commissaires Guiller and Domestique. One hundred and fifty persons were arrested, of whom 50 are detained in custody.

### TELEGRAPHIC DEEDS.

An unknown man was cut to pieces at Montreal on Sunday by a C.P.R. train and mangled badly. The body has not been identified.

An 11-year-old boy named William Hamilton was run over by a horse loaded wagon at Montreal on Saturday and instantly killed.

The body of Private Dunn of the R.C. R. of Belleville, who was drowned in the Ottawa River near Rockfield Camp, was found on Saturday.

John Tierney, Adolphusdown, who left over a year ago for the Klondike, died last March on his way home. His party endured great hardships, going by the Edmonton route.

The new steamer Italia, owned by the Calvin Co. of Kingston, with a cargo of iron ore, went ashore eight miles above this place on Sunday. It is thought the steamer will be lighted off without difficulty.

It has been definitely settled that Major General Hutton and Bishop Duymond of Niagara will officiate at the opening of the Toronto Exhibition a week from to-morrow.

London, August 21.—By the London Express, London, Aug. 21. Public opinion in Great Britain is in a state of great excitement in regard to the Italian police, which, now that the Italian revolution is in progress, is being drawn from England.

A meeting authorized by the subject was held in London, England, on Sunday, August 21. The meeting was held in the East End of London, the purpose of which was to spread the word, just as it did in Hong Kong. The meeting was held in a hall, and a large number of people were present.

The police then interfered and dislodged the crowd, making three arrests. The crowd at this point dispersed. The car that was going to the Place de la Republique, and the car driver, on arriving there, gave a signal to the police, who immediately arrested them and, together with two other Anarchists, Joseph Ferrand and Jean Parris. All were conveyed to the Chateau Eau Barrade. Only 100 francs was found in possession of the Anarchists, who were masters of the streets.

## THE DAYS OF THE COMMUNE

Recalled by the Anarchist Outbreak in Paris on Sunday.

Church of St. Joseph Attacked and Wrecked—Police and Gendarmes were Attacked With Knives and Hatchets and There was Considerable Bloodshed—Two Cuts Also Wrecked—Police Chief Stabbed—380 Persons Injured.

Paris, Aug. 21.—Paris was yesterday the scene of most serious disturbances, recalling some of the aspects of the Commune. In response to an appeal of the Journal Le Peuple and La Petite Republique, groups of Anarchists and Socialists gathered at 8 o'clock in the afternoon in the Place de la Republique.

Sebastian Faure and Parnis, well-known revolutionary Anarchists, addressed the crowd. Among other things Faure said the Anarchists should be masters of the streets.

## DOMINION DAY IN BERLIN.

A Belleville Gentleman Did His Share of the Talking.

The following is a clipping from the Berlin (Germany) Confectionaire of July 6, 1899.  
Five thousand miles from home, the Canadian buyers who were present in Berlin, assembled on Saturday evening, first of July, in order to celebrate, in a worthy manner, their Dominion Day in our city. For this purpose a small banquet had been arranged for in the apartments of the Zoological Garden.

The table was tastefully decorated with flowers; in the centre were grouped the flag of the motherland—the Union Jack, the flag of the Dominion of Canada, and as a third in the union was our German, black, white and red flag.  
Mr. Geddes, of Strathroy, was Chairman. Amongst those in attendance was Mr. C. M. Reid, of this City, who responded for the toast of "The Army, Navy and Volunteers."

## Better Clothing.

The Oak Hall have always tried to keep up the standard of ready-made clothing in Belleville. We have been discouraged sometimes, as we have to put our goods in competition with the goods of the big makers. But time brings all things right, and we are happy to notice that people are asking for the better clothing.

## PERSONAL

...AND...  
SOCIAL.

## WHAT PEOPLE ARE SAYING

That a good many people are wondering if the light is going to be cheaper when the Trenton Electric Company starts operation.

That at Belleville has not had a public celebration this year, something should be done towards having one on Labor Day.

That yesterday morning's storm caused many of the picnickers on the Annie Lake to wish themselves safe on land.

That "Lew" Soles is not on the trail of the people who use the law service during prohibited hours. "All cones look alike to me," says the Inspector.

That the condition of the old Dundas st. burying ground is a disgrace to the Methodists of Belleville. For decency's sake, if for no other reason, they should put it in respectable shape.

That you can hardly call a man a tenderfoot because some of the Belleville sidewalks hurt his feet.

That the suggestion to have a gala night on the evening of the last hand concert, which was made in last night's INTELLIGENCER, was a good one. If all the people who own or could hire boats would decorate them and take their sweethearts and wives out in them the affair couldn't help but be successful. Most of the young people are very strongly in favor of the idea, and with a little pushing it is sure to be a "go."

That pretty soon, on the west side of the river, you won't be able to throw a brick without hitting a telegraph pole.

That the lady who struck a nail which was sticking up in the sidewalk and kicked a hole in her foot very likely has her own opinion of the people who are supposed to keep Belleville's sidewalks in repair.

## SPORTING NEWS.

THE CANADIAN CUP.

A Last First Day in the International Yacht Race at Toronto.

Toronto, Aug. 22.—"No race" was the decision of the judges when it was found out that Genesee did not go over the water.

The first day of the international yacht race for the Canada's Cup was more than a hard luck one for both parties concerned, and the same trouble will be sailed over again to-day. At 11:30 the starting gun was fired and the challenger, Genesee, the first two seconds ahead of the defender, first Javelin, had better than time on his antagonist in weather advantage. The Genesee had a reef in her mainsail, while the Javelin was all out. Five or ten seconds after the start an accident happened to the defender that made it look like a win for the challenger, without an opponent. The throat of the Javelin was broken and she dropped down on the lee spreader, buckling it so that it could not be repaired at the time. The Genesee went on her way over the Toronto alone.

On arriving at the clubhouse the judges were told by those on the water that they had gone to what was to have been the second buoy first, and from there east, but could not find another, so returned home. Therefore, as the Genesee had not gone over the course, the race was declared off.

## The Shamrock Dry-Docked.

New York, Aug. 21.—The cup challenger, Shamrock, was towed from her anchorage off Tompkinsville, Staten Island, this morning to the Erie basin. The Erie left her anchorage before the race to get everything in readiness for Shamrock's arrival at the basin. The challenger will be dry-docked and thoroughly scraped, and will have her racing spars and gear put in as soon as possible. The racing spars and gear came over on a liner, and the men who will rig her will come from the other side.

## A Close Game at Rosedale.

Toronto, Aug. 22.—The first match of the Ketchikan Athletic Club's (New York) tour in Canada was played at Rosedale and the Americans yesterday and ended in a victory for the home team by 13 runs after an exciting game. Curran and Cobb of the visitors played grand cricket; in fact, it was the best cricket seen in Canada this year.

Manager McGraw, of the Baltimore Orioles, has made a record this season never before equaled in the annals of the game. He has played in 95 games, in 94 of which he has managed to get to first base at least once and usually often. In the last 31 games up to Saturday McGraw had gotten 35 bases on balls and been hit three times, a total of 38 bases. As he had previously gotten 65 bases on balls and been hit five times, his total of free passes secured from opposing pitchers amounts up to the imposing total of 103 in 95 games. This is a record in itself never before equaled. In the 31 games he has gotten almost as many bases as all the other men on the team put together.

The recent test cricket matches between England and Australia were played in such fine weather that they gave the batters great chances for high scores, and resulted in drawn games. Agitation has begun for some reform of the cricket regulations, either allowing four days for important matches, or for some system of handicapping with the view of bringing the attack and defence more on a level.

## A NARROW ESCAPE.

What Might Have Proved a Serious Accident.

(Special to the INTELLIGENCER.)  
Toronto, Aug. 21.—What might have been a most serious railway accident occurred on the Central Ontario Railway, about two miles north of Frankford, this afternoon. A train passing south had reached the point mentioned when one of the cars left the track. The engineer, quick to note that something was wrong, reversed his lever and the train was soon brought to a standstill. The extremely rotten condition of the ties through which the wheels of the derailed car crashed for several hundred yards was ill calculated to inspire confidence in a travelling public, and showed how easily a catastrophe had been the escape from a serious accident.

## Remedy for Whooping Cough.

If your children have whooping cough, don't start doing with Cough Syrup. Griffith's Menthyl Linctus is the most successful remedy. Applied to the chest and throat and taken internally on sugar, it goes direct to the spot and gives ease and relief in a few minutes. Your druggist has the authority to refund the money, if it is not satisfactory. Price 25 cents. For sale by D. M. Waters, cor. Front and Bridge sts.

## Headquarters Removed.

A Kingston despatch to the Toronto Telegram says: "W. J. Dingman, Indian Revenue Inspector of Kingston district, will remove the district headquarters staff from Belleville to Kingston."

Upon enquiry we learn that the despatch is no doubt true, as the newly appointed Inspector made application to the Minister to have his headquarters at Kingston, which request has apparently been granted. It will not mean the removal of any of the local officials from this City. The late Mr. W. J. Hamilton, Inspector, made his headquarters at Brockville, Kingston, and later at Belleville. Mr. Dingman, being a resident of the Limestone City, naturally desires to have his headquarters at his home.

## ANDERSON HIRED A LIVERY.

The Stableman Who Harnessed Up for Him on the Stand.

Told a Pretty Straight Story, But His Evidence Did Not Appear to Connect the Accused With the Bank Robbery.

—Riverman Simpson Could Not Identify Prisoner as the Man Who Hired Horse on Oct. 1 or 2.

Winnipeg, Aug. 22.—Cross-examination of Accusant Melish was conducted before Magistrate Twiss at the Police Court yesterday morning. He told the fourth day of the proceedings in the Molsons Bank robbery case. Mr. Melish described the duties of J. W. Anderson, a junior clerk. He gave Anderson a good character.

When the court resumed his sitting at 1:30, an old man named William Alden, called by the prosecution, He told the witness at Barnaby's Hill, in the livery. He knew the accused, who had hired a rig from his stable on or about Oct. 1 last. He wanted a team to go to Bird's Hill. He was given a team and a square box, or a piano buggy, which was correct. The accused asked him to put the side curtains on before leaving. The buggy was up. He then drove off. It was about 7 o'clock, in the morning, or a little later. It was then dark outside. It was a very rough and dirty night.

"Did you see the accused again?"  
Witness pointed out the prisoner as the person "I saw him again on the same night, two or three hours after he went away with the rig. I had some conversation with the accused. I said: 'You could not have gone to Bird's Hill in this short time,' and the accused replied: 'I went over Louise bridge, but it was too muddy, dry and dark, that I could not see my way and came back.'"

Witness asked me when Foreman Simpson would be home, and told me to ask him to refund part of the money. He said he would be around again in the morning. He might wait the team again to finish his journey. He did not come in again. Before he drove away in the first instance he seemed rather nervous.

Witness was then turned over to the defence for cross-examination. He said: "I always worked in Winnipeg. I did not find any memorandum concerning the first or second of October. I remember that J. W. Simpson coming into partnership on that date. It could not have been the third or fourth. The team was ordered for the first or second, for a hunting expedition, but it was such wet weather it was not taken and accused got it. This was the first order Simpson. The new partner, given to me a team ready for the hunting expedition."

Could Not Describe the Man.  
Witness could not give any description of the man who came to him on the same night, although he saw him in daylight. Would not know him if he saw him again. He knew all the regular customers.

Witness did not stand up well under cross-examination.

Simpson, the livery stable man, could not recognize Anderson as the man who hired a horse on Oct. 1 or 2.

The expectation is that Detective Davis will go into the witness box this morning.

A LITTLE GIRL'S  
BIG CAPTURE.

Hooked a 110-Pound Sturgeon With a Clothes-Line.

Chatham, Aug. 21.—Ferdinand Huff, a little girl of nine years, had a peculiar experience with a clothesline and a hundred and ten pound sturgeon at Lake Erie, about 18 miles south of Chatham. The little girl, who is staying with Harry Lindley at the lake, took a piece of clothesline, tied a large hook on it, and set a friend to bait it with a piece of meat. She then went down to the lake and dropped her bait hook into the water. Something tugged at the line, and the little girl called to Mr. Lindley, who was near. He took the clothesline, and after a struggle landed a huge sturgeon. The fish measured 6 feet 3 inches, and weighed 110 lbs. when dressed. The incident is the topic of the hour.

## PUBLIC OPINION

Expressed by the Liberal Press

The exposures which have been made in relation to the corrupt way in which the by-elections of late years have been carried has aroused public sentiment to such a degree that the whole Conservative and the more honest of the Liberal press are crying loudly for a remedy. This feature in our political history, added to the extravagance of the present Government, is shaking the moral and economical sentiments of the people, as will be seen by utterances of many of the press supporters of Messrs. Laurier and Tarte. Here are a few extracts from the many editorials which daily come under our notice:

**BRANTFORD EXPOSITOR (Liberal).**  
"To-day sees the prorogation of the longest session of Parliament in Canada since Confederation, and the one in which the expressed will of the people 'has been most impudently overridden'."

**The Kingston Whig (Liberal).**  
A horror of public debt, and when it sees the public obligations mounting up by millions, and during a booming period, it is left in wonder to what the end will be. The Liberals, when in opposition, harped upon this debt, showed how it was growing, how it was out of all proportion to the resources of the country, how burdensome was the annual charge for interest alone; and the Liberals, in power, ought to make some pretence at the redemption of their promises.

**Winnipeg Tribune (Liberal).**  
When it was announced that the railway subsidies brought down last night amounted to six and a half millions, thus bringing the total expenditure dangerously near sixty millions, there was a disposition to lose one's breath. Then it concluded: "There is no disguising the fact that the cautious and careful element of the Liberal party is somewhat flustered. Just what has become of the economy plank of the platform is one of those questions which nobody seems anxious to answer. Everybody is not speaking at once."

**HUNTINGDON GLEANER (Liberal).**  
The Premier and his colleagues may not realize it, but the enormous expenditure they are forcing on the country is ruining the Liberal party. The worst enemies of that party are not to be found on the Opposition, but on the Government benches. The ministers who, by their actions, are giving the lie to the old policy of the Liberal party in favor of retrenchment, in favor of bringing the expenditure within the income, in favor of making Canada a cheap country to live in, will yet have to answer for blasting the splendid prospects with which the Liberals came into office. He is no true Liberal who keeps silent at a time such as this, and does not urge an immediate and complete reversal of policy.

**Ottawa Journal (Independent).**  
While the province has been put to vile shame, while every decent paper of whatever class, party, or stripe, or shade of opinion has denounced the venality of the political methods revealed in West Elgin, while clergymen have voiced condemnation in the pulpit, and laymen on the platform while reputation has come even from prominent Liberals like S. H. Blake—the Hardy Government has remained still and dumb, an oyster of apathy, in a pool of provincial shame, impassively silent, motionless as a wall.

"The component parts of the oyster, the Premier and his colleagues, if they go fishing not for election baubles, but for bass, the people should go gunning after the Government—with bullets."

**MONTREAL STAR (Independent).**  
An organ with such a creed as the Globe's can easily believe that the estimates of the recent session will reduce the current expenditure and wipe out the national debt altogether; that what looks like extravagance is really economy; that the N.P. is only Col. Lincoln in disguise; that the exposures of the Grid machine are evidence of purity and honesty, and that the noble army of workers are actually trying to elevate the standard of public morality; and that true statesmanship is based upon the abandonment of life-long principles. The only trouble is that if the Globe believes what it says it believes, it will be difficult to argue anybody else into believing that it believes what it tries to make the public believe it believes. The average Canadian is not as glib as the Globe confides itself to be.

**FREDERICTON, N. B. GLEANER (Liberal).**  
The play has been what we might have expected it would be when we consider the character of the chief puppets and of the manipulator.

There has been a view of high comedy in the piece. We have seen the choleric knight who declared before a righteous heaven that \$38,000,000 was a tax heavier than Canada could bear, defending (to his credit be it said without any display of enthusiasm) an expenditure of \$60,000,000.

We have seen the party of purity (such was the proud title they arrogated to themselves) convicted of the grossest bribery and corruption. We have seen them defending the action of their machine, and have witnessed the spectacle of Ministers of the Crown taking part in disgusting electioneering.

We have seen the solemn protestors against a gerrymander gerrymandering at will, and getting and giving the counties

about King Quality Shoes. Ten to one she'll say "there are none better."

They are favorites with good dressers, because they are comfortable and yet stylish—stylish and yet economical.

Ask an expert their price, and he'll say '\$5'—he'd be wrong—for while they are worth it, our price is \$3. That's one secret of their success. Ask to see King Quality Shoes."

Made by the J. D. King Co., Limited, Toronto.

to suit their own electoral designs.

We have seen, too, the advocates of prohibition solemnly declaring that they never meant anything by their declarations.

"The off of such criticism," says a contemporary, "from sources usually friendly is not offset, but rather heightened, by the excoing tone adopted by such organs as the Toronto Globe, which, while plainly feeling that the Government has broken faith with the people who created it, have not the courage to put themselves on record in a way bringing about a better state of affairs. Men who thought the Conservatives were spending too much money will not be reconciled to the Laurier Government spending tens of millions more by the Liberal organs' half-whining claims that in effect mean that the conditions created by Liberal success are stronger than the Liberal regard for solemn promises made before the whole country. Nothing that is said or can be said can break the force of the criticism of the Government's doings by newspapers which were Liberal before Sir Wilfrid Laurier was, and which critics are echoed by every independent journal in Canada. By every visible sign it has been judged that the tide of popular opinion has turned against the men in power. I only needs time to throw them as wrecks on the coast of the political sea."

**ACCIDENT POLICIES.**  
A SOURCE OF DANGER.

There are many mistaken impressions abroad concerning the Policy which the City at present holds, protecting it against payments on account of accidents to its employees and its citizens. As stated lately in THE INTELLIGENCER, in the case of the man Kolhar, who has entered an action against the city for damages on account of an accident occurring in the case of a leg, the question is, does the accident policy cover it? Certainly not, unless Kolhar can prove that it was through the neglect or carelessness of the city or its officials that he met with his mishap. Some people have the idea that if a civic employee or a citizen is injured by the City can at once claim damages from the Company issuing the policy. That idea is erroneous. The party injured must first sue the City and obtain judgment against them before the Company becomes liable.

Here is a timely point. Suppose a resident of our city was injured through a defective sidewalk, he would not have much difficulty at the present time in proving that the City was liable, but could the City recover from the company issuing the policy? The City, in its application for the policy, binds itself to keep its sidewalks and streets in a reasonable state of repair. Who is going into court just now, and swear that Belleville's sidewalks are in "a reasonable state of repair." Just at present it would appear that the City is turning the candle at both ends—paying for an accident insurance policy and not fulfilling its own part of the agreement. It should either repair the sidewalks or cancel the policy.

Speaking to day with a gentleman thoroughly posted in insurance affairs, we were told that one reason for the companies raising the rates in this City was that some years ago a citizen of Belleville slipped and fell on an icy sidewalk and broke his leg. He had no intention of taking action against the City until he was visited by a lawyer, who was at that time a member of the City Council, and after being told by the City Council he was liable, he carried the accident policy which the City carried, was induced to enter an action. The case was settled before trial, and the injured party gave the Insurance Company's agent an affidavit to the foregoing effect. The man was dealt with directly, without the knowledge of the lawyer, who knew nothing of it till the whole facts came to light. The question is, was the aliperty state of the sidewalk the result of negligence on the part of the City? If not, then the Company was liable. If it were, then the City would have to pay any damages sustained, without any recourse under the accident policy which it holds.

These [are] points worthy of serious consideration, both by the citizens and the civic authorities.

## WELL PUT.

"The question to be decided at the next election is whether Canada shall be governed by the Canadian people or by the partisans of the Senate."—Toronto Globe.

Or perhaps whether Canada shall be governed by the blacklegged campaign manipulators and ballot-box stuffers employed and protected by Liberal politicians.—Ottawa Journal.

**Band Concert Postponed.**  
Owing to some members of the band being engaged on Thursday evening, the band concert at Victoria Park will take place on Friday evening instead.

## Charged With Larceny.

George Sova, of Teac, accused of larceny of some clothing and other articles from a hotel in that village, will be tried on Saturday before Acting Judge O. L. Lurier.

RELIGIOUS PERSECUTION  
NOT YET DEAD.

## INTOLERANCE IN AUSTRIA.

Recent suppression of the Methodist Churches, at Trieste, Austria, has, says a contemporary, drawn attention to the strict bounds set to religious liberty in Austria, even in these days of most universal toleration. It appears that only two Protestant churches—the Lutheran and the Reformed Church—are recognized by the State and allowed the privilege of holding public worship. The other dissenting sects are treated as private communities, and are forbidden to invite or admit strangers to their services under pain of fine and imprisonment. In Vienna the law is not strictly enforced, but in the provinces the Methodist churches have been subjected to great inconvenience and humiliation by the severe police supervision they have had to put up with. At Trieste, the pastor, Dr. Dardi, who has labored there for sixteen years, and has been most anxious not to give offence to the authorities, admitted to the service a man who brought an introduction stating that he was a devout Methodist. He turned out to be a detective, and he reported to the authorities that the law requiring the services to be held in private was not observed. The result was the suppression of the church by the police. It seems, however, not unlikely that out of this evil good may come, for the position of the Austrian Methodists is such that to draw attention to it should be enough to enforce a remedy. They are classed by the authorities as infidels, and unless they register their children at birth as without religious faith, their religious education is taken out of the hands of the parents and committed to the priests in the state schools. The children are obliged to go to school regularly between the ages of 7 and 14, and are not allowed to attend the Methodist Church or receive religious instruction, even from their own parents. Such a state of things in a civilized country would be incredible if it were not vouchered for on good authority and borne out by facts. It is not time, we may add, that Protestant countries not only protest against such intolerance, but take steps to prevent them. At this age of the world, no such persecution should be tolerated.

NO NEED OF LOOKING  
SHABBY.

It is Quite Easy to Make  
Old Dresses and Suits  
Look Like New.

Economical and smart women can make wondrous creations out of seemingly useless garments. The old dress that is out of style or too faded to wear can be readily dyed with Diamond Dyes to a fashionable color, and then made over so that it will look equal to new. Suits for boys can be made from old ones discarded by the father and laid in Diamond Dyes will make them as handsome as new. Dresses and cloaks for the little girls can be made with little trouble and at small expense from cast-off garments of the older folk, and when they are dyed with Diamond Dyes the new make-overs will look as though they were fresh from the dressmaker.

## HAD A ROUGH TIME.

Yesterday's Windstorm Caused a Lot of Trouble on the Bay.

During the severe storm yesterday the craft upon the bay and lake suffered considerable inconvenience and many were forced to seek shelter. The steam yacht, Curlew was coming up the bay at the time, from Massena Bay, and, owing to some defect in the machinery, was compelled to run ashore, it being feared that she would founder if this was not done.

A passenger upon the Varuna, which, coming from the H. G. W. line, it caused her to strike the boat at the gap and a rough time was experienced while the blow lasted. The decks were washed over and articles movable were carried about, but the staunch craft weathered the storm well.

SNAP SHOTS AT  
TIMELY TOPICS.

—A Woodstock clergyman said on Sunday that every man who smoked a pipe was a heathen.

—Definition of a French court-martial: A place where everybody calls everybody else a liar.—Toronto Star.

It sounds paradoxical, but in all probability everybody tells the truth.

—M. W. Greer, mining expert, of Ottawa, has discovered a lake in an extinct crater near White Horse Rapids, British Columbia. The water in the lake is bitter and quite warm.

—The Kincardine Review rises to remark: "If the Attorney-General's department pursued political criminals with one tenth the zeal with which it pursues Billy Ponton, there would be very little crime committed in future elections."

—If the Tory press thinks it is going to lie the Liberals out of power as it did poor Alexander Mackenzie, it mistakes the mon.—Moncton Transcript.

No need to use falsehood. The truth is quite bad enough.

—Wicked Tory papers say that Sir Richard Cartwright may have to swallow himself when he delivers his oration at Toronto, but considering what he has swallowed in the last three years that will be easy.

—A French colonel committed suicide because the newspapers criticized him. It is a good thing Canadian aldermen are not so thin-skinned, or some Canadian towns and cities would never be able to get a quorum at Council meetings.

—The aid of the material in drawing attention to the spiritual was illustrated by the resourceful strategy of a colored minister in New Jersey, who had sales of luncheon watermelon passed around between prayer and exhortation. As a result his meetings were crowded, and sermons and watermelon were equally well digested.

—The Medical Brief presents a labored argument against the use of water as a beverage, which is all right as an argument, of course. The average man doesn't drink water to excess, however, and if he did it's not likely the exhalation produced would make him kill somebody or pull his wife's hair out. Water is a safer beverage to drink to excess than some other things.

## THE BUBONIC PLAGUE.

Precautions Taken to Prevent its Introduction into Canada.

Ottawa, Aug. 21.—The Department of Agriculture is fully alive to the importance of preventing the possibility of the introduction into Canada of the bubonic plague, and Dr. Montmazer, the Director General of Public Health, has given such instructions to quarantine officers as will ensure sufficient safeguards.

## Damage by the Storm.

A severe thunderstorm passed over Prince Edward County yesterday morning and considerable damage was done. At Wellington lightning struck and burned Mr. T. Raynor's barn and drivehouse, with his entire crop, together with many other buildings. There was an insurance of \$800 on the buildings and contents.

**A Tangible Terror.**  
They talked about the guillotine till they filled me with money.  
They said he was a bold burglar.  
He brought ruin in his way.  
And I used to stop and listen, held by oratory's charm,  
And clean forget the duties that were waiting on the farm.  
Tears my country's hour of peril, and my tale I told,  
And all this time the fater bug was in his deadly hold.

So your kindling log ramble Where he will, for all of me. I won't live in any ramble Till they fill me with money. I've learnt my little lesson, and it won't be soon forgot.  
I know the humming sparrow is a large and varied bird.

## IN HONOR OF "DORRIS SCOTLAND."

Yesterday's Gatherin' o' the Clans was Very Successful.

Crowds of Visitors in the City—First-Class Dancing and Athletic Events—The Skirt o' the Pipes Made Many Scottish Hearts Leap for Joy—The Promenade Concert a Grand Affair.

When yesterday dawned, with its lowering sky and threats of rain, many people shook their heads ominously and said "I'm afraid the weather will spoil the celebration." The younger ones hoped for the best, anyhow, and the elderly people, well, they were used to Scotch weather, and yesterday morning's cloudiness didn't frighten them and women who had been used to "Scotch mists." It was a great day. Gungary camps and Tam o' Shanters were in evidence everywhere. The picturesque costumes of the "Kilties" were gazed at admiringly, and with the many flags and banners displayed, the scene was one of interest and animation. There was a buzz of expectancy in the air all morning, for not the famous 48th Highlanders' band coming down from Toronto, and were not hundreds of Scotch ears just tingling to hear them play "Och o' the North," that tune which poor Piper Findlater made famous at "Dargul Ridge." Ah! dearer to Scottish hearts than any other is the music that reminds them of "Home, sweet home." At an early hour the streets were thronged with visitors, and it was apparent that nothing but a veritable downpour of rain could prevent the Society from scoring a great success. The band came in at the morning train and marched down to the Angle, where they put up. Shortly after one o'clock, after the band and pipers had played a selection in front of the hotel, the route of procession was taken up to the Exhibition grounds, where the following programme of sports and games was carried out:

Exhibition Reel in Highland costume—Miss Emma Lamont, 1st; Miss Bunch, 2nd; A. Munro, 3rd. D. S. Johnson, 4th.

Best Dressed Highlander With Ornaments—Peter Wilson, Toronto, 1st; J. McLachlan, Belleville, 2nd.

Best Dressed Highlander, Plain—J. McLachlan, 1st; D. S. Johnson, 2nd; A. Munro, 3rd. D. S. Johnson, 4th.

Best Dressed Highlander Boy—R. G. McNeil, Toronto, 1st; J. Gardner, Toronto, 2nd.

Best Dressed Highlander Girl—Elma Lamont, 1st; Flora Gardner, 2nd. Both of Toronto.

Highland Fling—A. Munro, 1st; D. S. Johnson, 2nd; Geo. Murray, 3rd. All of Toronto.

Bagpipe Music—Marches—Geo. Murray, 1st; S. Leask, 2nd; G. Thompson, 3rd. All of Toronto.

Sword Dance—D. S. Johnson, 1st; A. Munro, 2nd. Both of Toronto.

Bagpipe Music—Strathspeys and reels. Geo. Murray, 1st; S. Leask, 2nd; Geo. Thompson, 3rd. All of Toronto.

Scottish Triallies—Alma Lamont, 1st; Flora Gardner, 2nd. Both of Toronto.

Highland Fling—Alma Lamont, 1st; Laura Gardner, 2nd. Boys J. Gardner, 1st; R. J. McNeil, 2nd.

Sailor's Hornpipe—D. S. Johnson, 1st; R. J. McNeil, 2nd. Both of Toronto.

Sword Dance—Boys or Girls—Marj. Bunch, 1st; Alma Lamont, 2nd. Both of Toronto.

The exhibition match by pipe band and fiddle. The Highlanders' band was loudly applauded.

Girls' Foot Race, 16 years and under, (100 yards)—Jennie Claxton, 1st; Maud Watta, 2nd; Katherine Bruce, 3rd; all of Belleville.

Boys' Foot Race, 14 years and under, (100 yards)—E. Roe, 1st; E. Kelloway, 2nd. (Competitors to keep all steps pick up.)—Mrs. J. Arnold, Toronto, 1st; Mrs. Hume, Belleville, 2nd; Mrs. Wm. Mills, Belleville, 3rd.

Men's 100 Yards Foot Race, (open)—D. McIntyre, Belleville, 1st; W. S. Ford, Trenton, 2nd; R. Brown, 3rd.

Relapse Soap Race, 100 yards—Mary King, 1st; Jennie Claxton, 2nd; Maud Watta, 3rd. All of Belleville.

One third Mile Foot Race, (open)—D. McIntyre, Belleville, 1st; W. S. Ford, Trenton, 2nd; Armstrong, 3rd.

Sons of Scotland Race (100 yards)—A. Munro, Toronto, 1st; David Scott, Belleville, 2nd; J. Parks, 3rd.

Race for Men in Kilts—W. S. Ford, Trenton, 1st; A. D. Dinneen, Toronto, 2nd; A. Munro, Belleville, 3rd.

Grand Tug of War (open). Team of Men.—The teams were 8 men of the 10th A.L.C. of this City, and 8 members of the 48th Highlanders. The tug proved to be an exciting event and was won by the local men who twice in succession succeeded in pulling the Toronto men. The teams were as follows:

XV. Battalion—E. Cochrane, G. Johnson, G. Tilly, R. Smith, L. Keller, W. Keller, J. Patterson and W. Lucas.

48th Highlanders—MacLellan, McLellan, Baland, Alexander, Leask, Thompson, McNeil and Mantion.

Carters' Slow Race, Driver to be changed.—J. Patterson, 1st; T. Solor, 2nd.

### BICYCLE RACES.

The various events were well contested, and but for the accident elsewhere, none passed off successfully. The various officials were prompt and their duties were well discharged. Those who had been there were:

Referee—Mr. Hughes, Kingston. Timekeepers—J. Hordridge and G. S. Johnson, Belleville.

Recorder—W. Wensley, Belleville. Clerks of Course—E. T. Cherry and O. Dunlop, Belleville.

### Secretary—H. A. Fish, Belleville.

Judges—L. B. Cooper, J. J. B. Flint, Belleville; J. Stonebury, Toronto.

The first event was the one mile novices for which there were fifteen entries. It was run in three heats, the winner in each heat being as follows:

1st Heat—J. Row, Belleville, 1st; F. Davidson, Peterboro, 2nd; J. A. Lowry, Kingston, 3rd.—Time 3:27.5.

2nd Heat—W. Morton, Toronto, 1st; C. F. Dale, Belleville, 2nd; R. M. Boyd, Belleville, 3rd.—Time 3:27.5.

3rd and final heat—W. Morton, Toronto, 1st; E. A. Kiley, Belleville, 2nd; C. F. Dale, Belleville, 3rd.—Time 3:00.2.5.

Quinto Leasco Event was the second and third heats, one mile.—Final event by Quinto Leasco, \$50 Silver Trophy. First heat E. A. Ford, Trenton, 1st; J. Martin, Kingston, 2nd; R. M. Boyd, Belleville, 3rd; C. M. Baker, Deseronto, 4th.—Time 3:43.2.5.

Second heat—M. P. Oliver, Deseronto, 1st; A. E. Ridley, Belleville, 2nd; G. Smith, Trenton, 3rd; J. A. Lowry, Kingston, 4th.—Time 3:25.

Third heat—J. Row, Belleville, 1st; P. Battick, Deseronto, 2nd; A. Robinson, Kingston, 3rd; J. Fairman, Trenton, 4th.—Time 3:02.3.5.

The result was a win for Deseronto by 16 points, Belleville 15, Trenton 13, Kingston 10, Napawa and Pictou 3 each. Deseronto thus won the cup for this year.

Boys' Race, 15 years and under, one mile—There were three entries for this event, all being residents of the City. They finish in the order named: J. D. Black, S. Pringle and R. Harrison.

One third mile (open), time limit 48 seconds.—There were eleven entries for this event. The first heat was no race as the best time made was 48.2.5 seconds. In the second heat J. M. Martin, of Kingston, was first; W. Morton, Toronto, 2nd; C. F. Dale, Belleville, 3rd. Time 47.2.3 seconds.

One mile open—Time limit, 2.40. For this event there were eight entries. W. Morton, Toronto, 1st; E. Johnson, Deseronto, 2nd, and N. J. Robinson, of Kingston, 3rd. Time 2.28.1.5.

Two mile club handicap.—This race was won by A. Wensley.—F. Dale 2nd, and J. Low 3rd. Time 5.31.

Two mile handicap, open.—This was the event in which the accident occurred, it being one of the worst spurs ever witnessed upon a track in this city. There were twenty entries. Ten of the riders were started at the scratch. Seven were given 75 yards start and three 50 yards. When one lap had been completed the riders were in a bunch and continued in this position during the making of the second lap. When going around the north west corner of the track the third time F. Lynn, of this city, and W. Morton, of Toronto, for lack of space, struck each other, and one of them fell. In a breath some 12 men were in the air, the scene being a most indescribable. A rush was made by the crowd for the spot, and it was feared that some bad accident would result. One of the riders was picked up and laid upon the grass, being in an unconscious condition. This proved to be W. J. Walker, of this City. He was apparently seriously injured. He was carried to the main building on the ground and the physicians upon the ground summoned to attend him. He recovered partially after some time and was taken home in the ambulance. N. J. Robinson, of Kingston, and J. A. Lowry, from the same place, both suffered considerably, the former being the most seriously injured. F. Lynn, of this City, sustained a number of bad cuts and bruises, and some of the other riders were hurt. It was fortunate that nothing more serious followed, as it was at first feared that some had been fatally injured. The accident had the effect of dampening the ardor of the crowd. A number of who were badly battered.

Another event was upon the program, namely, the Citizens' Gold Medal Race, 5 miles, time limit, but owing to the accident and a large number of the riders being injured for racing, it did not take place.

The programme was completed at 6.15, and the people left the grounds apparently well pleased with the afternoon sport.

### PROMENADE CONCERT.

The promenade concert in the Pinnacle at risk last night was a highly successful affair. It was estimated that nearly three thousand people were in attendance, and one and all were loud in their praises of the entertainment provided by the 48th Highlanders' band and the other clever people on the programme. The playing of the band was enthusiastically applauded, the patriotic selections being especially popular. Their rendition of Baccalotti's characteristic, "A Hunting Scene," was very pleasing. Mr. George McClellan's vocal selections were given in splendid style, while the Scotch dances were most successful and greatly appreciated. The dancing of the children, as usual, was a favorite feature, especially with the ladies. The Sons of Scotland are to be congratulated on what was probably the most successful Scottish concert held in Belleville for many years.

### Darkest Russia.

To night we will have H. Gratani Donnelly's story, "Darkest Russia," at the Opera House, as the opening attraction of the coming season. Darkest Russia is a good play, and it would not have surprised the least if it had been from year to year. The story is one of Russia and the Russians. It has an abundance of strong scenes and highly wrought up situations, and what a medium of laughter, making comedy greater than usually seen in a play of this class. Special recognition is carried for the entire production.

### Always Ready

Any person leaving for the Northwest or any other country and wanting to get a winter outfit, can be fitted out at the Oak Hall just as well as in the cold weather. This store is always ready, and you won't have to wait a minute. Over coats, ulsters, underwear, top hats, always ready to show, in season or out.

## CRUSHER TO DEATH.

Sad Fate of a Former Belleville Man.

Back and Neck Broken by a Falling Timber—Leaves a Wife and Five Children.

News has been received in the City of the death of William, Michigan, of Mr. William Booth, who formerly resided on Murray street, this City. Particulars are meagre, but it seems that while engaged in lumbering, a large piece of timber fell on him from a wagon, breaking his neck and back.

The unfortunate man, who was very popular among his acquaintances in this City, leaves a wife and five children to mourn his loss. His wife was a Miss Peart, and her father left Belleville only a short time ago to take up his residence with his son-in-law. Mr. and Mrs. Booth left here some two years ago.

Decceased was, during his residence in Belleville, a popular member of the XV. Battalion, being a sergeant in No. 5 Company, commanded by Capt. Vermilyea.

## MR. CHAMBERLAIN HAS REPLY

Contents Will Not Be Divulged Until Government Deliberates.

Cape Town News Vendor Has "Excellent"

Confidential Information. However, Revealing the Conversation Offered On the Question of Susceptibility the Whole Matter Will Be Settled, Unless the British Government Backs Them.

London, Aug. 24.—The Secretary of State for the Colonies, Mr. Joseph Chamberlain, has received the text of the Transvaal's reply to the proposals of the British Government, and now has them under consideration. The members of the Cabinet are within reach, but until the Government has determined on what course to pursue Mr. Chamberlain is unwilling to divulge the contents of the message from South Africa.

Report That Kruger Has Yielded. The Morning Leader prints a despatch from Cape Town saying that President Kruger has yielded to the British demands and will grant a five-year retroactive franchise. He will also allow the additional members from the gold fields to such rank, and will increase this representation if the number of enfranchised Uitlanders justifies it.

The despatch adds that the Governor of the Transvaal has admitted that he stopped the consignment of arms to the Transvaal at the instance of Great Britain.

Disquieting Reports. The Johannesburg correspondent of The Times says: "Disquieting reports have been received here from Natal. It is said that on Sunday a train from Johannesburg was fired on in the Transvaal territory. The feeling near the border is bitter, and the disloyal Natal Dutch are armed with Mausers."

Another Document Handed In. Pretoria, Aug. 24.—Mr. Conyngham Green, British agent and charge d'affaires at Pretoria, yesterday presented to the Government a further despatch from the British Secretary of State for the Colonies, Mr. Chamberlain, the nature of which has not yet been divulged. The presumption is that it is connected with the recent party parades.

This Looks Warlike. Cape Town, Aug. 24.—Although the official answer of the Transvaal to the proposals of the Transvaal Government to Great Britain's proposition for a joint commission to inquire as to what effect the franchise measures would have on the Uitlanders is probably incomplete, it undoubtedly gives the general lines accurately.

The Mafeking Horse Regiment is mobilizing rapidly. Several hundred recruits have arrived and been equipped here, and have joined Viviani camp. Every train is bringing fresh recruits. It is rumored that 400 Boers have formed a league on the border.

Excellent, But Unofficial. From an excellent unofficial source of information, it is ascertained that the substance of the Transvaal's reply to the latter's demand is a concession of a five years' retroactive franchise, a share in the election of the President, and an increase in the representation of the gold fields—probably eight additional seats—and a stipulation that all other questions are to be submitted to an arbitrator, by which we are led to hope that Great Britain shall not use the present interference as a precedent, and that the British Government shall relinquish all suzerainty rights.

Are There Traitors in Camp? Pietermaritzburg, Natal, South Africa, Aug. 24.—In connection with the rumor that there are many Boers who are British subjects, and who outwardly sympathize with the British, while in reality they are secret agents of President Kruger of the Transvaal Republic, the Premier of Natal yesterday evening declared that it was the intention of the Government to take steps to detect and punish any British subjects co-operating with the enemies of the Queen.

It is alleged that much secret information has been conveyed to President Kruger, and that even ambassadors have been proper for the British troops in the event of war, by these secret agents. A force of police have been ordered to Colenso, owing to rumors of the intention of the Boers to destroy the railroad bridge at that place.

Are They for the Boers. Birmingham, Eng., Aug. 24.—A firm of this place has received an order for 14,000,000 Mauser cartridges for urgent delivery in South Africa. Money is being observed as to the exact destination of the cartridges, but it is said that the Boers alone use Mauser rifles in the territory.

That Ammunition. Lorenzo Marques, Delagoa Bay, Aug. 24.—The destined ammunition intended for the Transvaal, has been removed to the Portuguese territory. It is reported that the Boers contemplate sending a commando for the ammunition.

COMMITTED FOR TRIAL. No Evidence Offered for the Defence in Winnipeg Robbery Case—Anderson Sent to the Asylum.

Winnipeg, Man., Aug. 24.—The preliminary trial against young Anderson, charged with the bank robbery, continued yesterday at the Police Court. The evidence of Davis was read over to him in the morning and signed.

J. J. Macdonald, accountant for the McClary Manufacturing Company, was examined and gave the account of a high character. He said he was a most efficient office hand. The witness identified the coat and hat said to have been worn by Anderson the night he went with Davis to look for the money, as having been in McClary's office. The hat belonged to witnesses.

At the conclusion of Black's evidence Anderson was committed to stand his trial before the Superior Court. The Assizes will be held next November. Anderson will go before a jury. As is usual, no evidence was offered by the defence at the Police Court. The application for bail will be made to-day.

ONTARIO RIFLE MATCHES. The Shooting Was Better on the Second Day—Two Possibles Made.

Toronto, Aug. 24.—The shooting on the second day of the O.R.A. matches at the Long Branch ranges showed a marked improvement over the previous day. In the morning the light was poor, but in the afternoon the sun shone bright. The wind did not interfere to any great extent, and on the whole the day, as far as the weather was concerned, was favorable to the shooting.

The match was won by Corporal K. Richardson, 5th R.C.A., in the "Gordon" competition, and the other by Corporal Kerr, 1st, in the "Corporation" match.

Ladies' Challenge Cup—To be contested for by five previous winners of any one affiliated association, resulted as follows: \$50 and Challenge Cup, Royal Grenadiers' team; \$25, 4th Highlanders; 1st team; \$10, 5th Royal Rifles; \$10, O.R.A. 2nd team.

Corporation of the City of Toronto.—This match was fired in two sections, and the first 50 on the list will shoot again to-day. The prize money in this contest amounts to \$100, \$25 of which is given by the association.

The Gordon—In this match Corporal K. Richardson, 5th R.C.A., was first and won \$75 with a score of 32.

STOKES IS CORONED. King Charles Signs a Decree to Protect the People.

Lisbon, Aug. 24.—King Charles yesterday signed a decree establishing a sanitary cordon around Oporto during the continuance of the bubonic plague there. The Lisbon papers assert that workmen, who recently arrived here from Oporto, have developed symptoms of the plague.

Expect the End of the World. St. Petersburg, Aug. 24.—Report from South Russia says that a rumor of an approaching end of the world is causing a panic among the uneducated classes. At Kharkov, the capital of the government of that name, workmen are leaving the city in large numbers, wishing to spend what they consider their last days at their village homes. The factory owners have asked the police to stop this emigration in order to prevent the ruin of business.

Baptist as a Dagger. Winnipeg, Aug. 24.—A woman named Peterson, while in an intoxicated condition, stabbed a woman named Nelson in the breast with a bat pin. The wound is a dangerous one, and may prove fatal. Mrs. Peterson is in jail. Both are Syrians.

**COPPER SHARES.**  
Safest Investment, Largest Dividends.

A portion of the full paid and non-assessable capital stock of the Boston & Texas Copper Company is offered for sale at Five Dollars per Share (per \$10 for Treasury purposes), and is recommended as a safe and highly promising investment.

The company controls twelve thousand acres of rich copper land in North Texas which is also valuable for farming and town site purposes. The tract is some 10 miles long and about three miles wide. It is equivalent in size to five hundred ordinary mining claims.

The property has been developed sufficiently to begin producing at once, large amounts of the richest copper ore (40 to 70 per cent.) taken out and marketed, and inexhaustible quantities of copper mat and clay running from 3 to 15 per cent. copper found. (Calumet and Hecla are the richest copper mines in the world.)

The property is within 12 miles of a railroad and fuel and water are available. The ore and mat are on the surface and a few feet down, and can be mined and converted into copper cheaper than any other deposits in America. Copper will be produced on the ground and a plant of moderate cost will treat 300 to 500 tons of ore and material per day, and according to engineers estimate earn \$3,000 to \$5,000 per day, net, with copper at 15 cents per pound. It is now 18 cents per pound.

The property has a historical reputation and a record in the State Geological Reports. It has been examined and reported upon by the highest engineering, geological and expert authorities and its merit and value are established beyond all question. It is not an experiment, nor is its value speculative, they are proven and demonstrated.

FROM REPORT OF PROF. W. M. DERRIE, FORMER STATE CHEMIST OF TEXAS.

"Such numerous outcrops of copper ore have been traced over the summit and sides of those hills that out of 12,000 acres of land which the company own, hardly a 160 acre tract should be found without ore upon the surface."

"A cross-cut to the depth of 15 feet was made upon the Isabel level, and ten hours' work resulted in the raising of 6,000 lbs. of rich copper ore, averaging about 60 per cent. of copper. (Worth \$360, net)."

"It is easily melted and the strata in which it is found can also be more economically excavated than other in which copper ores occur."

FROM REPORT OF PROF. W. F. CUMMINS, FORMER GEOLOGIST OF TEXAS.

"I had to express my entire satisfaction with and confidence in the reports made by Prof. W. F. Cummins."

"I only had to remove one foot of earth from the surface on the three spots already mentioned in order to find large deposits banded into the clay. After washing, this clay was found to contain 15 per cent. of copper ore of same value as above. These ores could of course be taken out and made available at a relatively small expense."

FROM REPORT OF T. BURTON EVERETT, MINING ENGINEER AND EXPERT.

HON. EMERY H. LOW, President, and others, Boston, Mass.: "There is abundant evidence of rich copper deposits, not only at the mines already opened, but at various other parts of the property, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States."

"The ore found in these deposits are immensely rich in copper values, and enormous quantities of them are also found here in immense beds, while not as rich, will undoubtedly prove of great value on account of the cheapness with which they can be mined and reduced."

"The mines are accessible at every point; the cost of mining will be very small, as the ore is not in hard formation; and there is no deep work."

"I have examined the various reports made by others, and confirm them."

"As far as I have been able to investigate, and I have done so carefully, I am of the opinion that it is one of the richest copper fields in the country."

Major F. M. Spaulding, of Boston, and C. F. Crouley, Esq., of Lowell, Mass., who returned June 16th from an examination of the property on behalf of the Company's stockholders and intending investors, report that they found the property as represented and confirm the expert reports. They visited and examined the nine mines and explored the entire property.

The Company is thoroughly organized with substantial business men in the management. It has such extensive acreage of land, rich in copper, and so easily and cheaply mined and converted, that dividends can be earned and paid during the current year. Now is the time to make a safe and profitable investment, and those who take advantage of this opportunity to buy stock at the low price offered will reap the benefit.

Remit by P. O. Order, Registered Letter, Check or Express to Edward B. Robins, Treasurer, Tremont Building, Boston, Mass. Price, \$5.00 per share, Subject to advance.

## Merry Wedding Bells.

A very happy wedding occurred on Wednesday, Aug. 16th, at the residence of Mr. and Mrs. Geo. S. Day, of Dayton, when their daughter Mary was united in marriage to Mr. Fred Carter, of Egan Creek, formerly of Holloway.

The ceremony was performed by the pastor of the First Baptist Church. The bride was supported by Miss Sutton, and the groom was aided by Mr. and Mrs. Smith, both of Egan Creek. The ceremony was witnessed by a large number of invited friends.

Before the wedding supper was partaken of the usual toast to the bride, proposed by Mr. John Kelusky, of Bancroft, was drunk by many friends who gathered for the occasion. A large number of beautiful presents testified to the esteem in which the bride is held. The many friends of Mr. and Mrs. Carter all join in wishing them a long and happy wedded life.

**HILLIER.** Sunday, Aug. 13th, 1899. We had a fine shower Saturday morning, but it only lasted a short time. In account of the large amount of grain grown here this year, most of the farmers are threshing them out in the field. Several new buildings are being erected here. Herb Chase in the village is having a house built, also Mr. Levi Palmer. Mr. W. N. Lord has been improving his building. Mr. Edward Sadder, from near Gilead, spent to-day in the village. The Misses Young visited with Miss Mary Shire. The ice cream social held on St. Mark's church lawn was a brilliant success. Mr. Oulton Macdonald of Toronto defied the large assembly with songs. Mr. Wilton, Mr. Orser, and Miss Macdonald also contributed to the programme in a creditable manner. Proceeds, twenty-eight dollars.

**MOUNT PLEASANT.** Miss Whytock, of Madoc, is the guest of her sister, Mrs. Robt. Fox. Miss Guss has returned to her home at Robeson after spending two weeks with Mrs. Shire. The ice cream social held on St. Mark's church lawn was a brilliant success. Mr. Oulton Macdonald of Toronto defied the large assembly with songs. Mr. Wilton, Mr. Orser, and Miss Macdonald also contributed to the programme in a creditable manner. Proceeds, twenty-eight dollars.

THREE HUNDRED NEW SPECIMENS

Have Just Been Received at the Assay Office—What is Being Done at the Provincial Institution.

The Government Assay Office has recently received 300 specimens of economic minerals from all parts of the world. These specimens were prepared at the Kingston School of Mines and placed at the disposal of the public. The reason for this is that the public school building was not convenient to parties wishing to make use of the specimens. The cabinets are more conveniently located at Belleville, which is the county town, where all transferring of claims and options are registered.

Prospectors and mineral land owners may have doubtful samples tested and reported on at a nominal fee at the Assay Office.

Director Blue, of the Bureau of Mines, recently paid the office an official visit of inspection and was much pleased with the new location of the office.

The laboratory has received a large consignment of samples (183 samples) of gold ore from the Selkirk River gold district, where there is great activity in development, owing to the production of bullion by the stamp-mill in operation.

The following mining men have called at the office on business recently: J. Van Sommer, Toronto, who is looking up iron ore in Eastern Ontario for a Toronto company with a view to the erection of a smelter; J. Clark, J.P., Bancroft, who reports opening of iron deposits due to the extension of the Central Ontario Railway to that district; Dr. J. H. Platt, Pictou, returning from a prospecting trip in the Parry Sound district; Thos. Cotes, Oshawa, who is prospecting in the township of F. E. Farnum, Detroit, and Store Wellington, Madoc, who are opening up a copper property in Mayo Township.

THE RIGHT VIEW

To take of the clothing question is not how much it costs, but how long it will wear. Quick & Robertson sell you a suit good for two seasons at the price of single season clothing. That gives you double the value that entitles us to your trade. You are protected by our guarantee and you run no risk. Seven seasons of this season's best productions just opened to-day.

NEIL DARRAH AGAIN.

The flagrant Allow Him Until Next Monday to Leave Town.

At a few minutes after 10 o'clock last night officer Hayes was called to arrest Darrah, who was reported to be creating a disturbance at his home on the flats. The man was arrested and this morning pleaded with the Magistrate to be allowed the privilege of leaving the City. As there was already a warrant over him to keep the peace the Magistrate was loath to comply with the request, but did so. He was fined \$30 or 6 months and given until Monday next to leave the City. Darrah stated that there would be no trouble in the house if it were not for the children and the mother taking their part. He promised the P.M. that he would leave the City on the day stated.

School Suits at a Bargain.

The Oak Hall have a lot of boys' school suits in sizes 25 to 26 that will be sold at one-half price. Darrah's are \$5.00 at \$2.50. Also a lot of boys' suits at \$5.00, also they are broken lots and we want to clear them. Choose \$2.50.

County Jail Notes.

There are at present confined in the jail but 7 male persons and two of these are lunatics. There are no females. This is an exceptionally small number of inmates. George Sosa, accused of larceny will be tried to-morrow. He hails from Tweed and is charged with stealing clothes and a bag of potatoes. The interior entrance to the Courthouse has been much improved by an application of paint.

A pair of fine red squirrels have this summer made their home among the trees which adorn the terrace in front of the Courthouse.

Children Cry for CASTORIA.

Arrival and Departure.

M. M. Cochran, the newly appointed Dursar at the Deaf and Dumb Institution, came from Kingston last evening and to-day assumed his duties at the Institute. Mr. A. Matheson, former Dursar, and family, left yesterday for Toronto, where they will in future reside. Much regret is expressed at Mr. Matheson's departure.

Tender Corons.

Soft corons, corons of all kinds removed without pain or sore spots by Putnam's Painless Corn Extractor. Thousands testify that it is certain, painless and prompt. Do not be imposed upon by substitutes offered for the genuine "Putnam's" Extractor. Sure, safe, harmless.

Consigned to the Tomb.

The funeral of the late Miss Annie Dursay took place this afternoon and was largely attended. The remains were taken to St. Michael's church, where services were conducted by Rev. J. J. Donnelly. The interment took place at the St. O. Cemetery.

Bismarck's Iron Nerve

Was the result of his splendid health. Inconceivable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you desire these qualities and the success they bring, use Dr. King's New Life Pills. They take every power of brain and body. Only 25c at J. S. McKeown's Drug Store.

AMUSEMENTS.

DARKEST RUSSIA.

There was only a fair attendance at the Opera House last night to witness Edw. C. Johnson's production of "Darkest Russia," a great play of the Czar's realm by H. Gratton Donnelly. It was one of the best performances seen in this City for many months. The acting of the various members of the company was good and the scenic effects were also superb.

SIR RICHARD CARTWRIGHT.

The Knight of the Double Shield Plays the Role Again.

He Makes a Defence of the Extravagance of the Present Liberal Government, and in a Two Hours Speech He Swallowed His Form—Opinions and Justified His Expenditure—A Large Audience Present.

Toronto, Aug. 25.—The Hon. Sir Richard Cartwright, G.C.M.G., Minister of Trade and Commerce, arrived in town at 5.30 p.m. and was met at the station by the Hon. George W. Ross, Dr. James Spence, Honorary President of the Cartwright Club; H. M. Mulholland, President of the club; W. H. Hall, secretary; A. C. Williams, Albert Smith, Messrs. W. O. Mulholland, J. J. Ward, J. Tennant, A. Gillies and W. F. Singer.

At 7 o'clock the doors of Massey Hall were opened and a huge crowd pushed their way in. Soon the hall, with the exception of the top galleries, was filled. Many strange faces were among the auditors. The outlying towns had sent in their quota and the orator was speaking not only to Torontonians but also to thousands of taxpayers from a radius of miles. Many conversations were in the English language. When half of Sir Richard's speech was over, many persons left the hall. By the time the figures were given, Mr. Ross arose, fully one-quarter of the hall had departed, and before he had said more than the remainder had arisen, without taking their cue from the hall, left amid the strains of the National Anthem.

Sir Richard on the Reformer.

At precisely 7.30 Sir Richard, preceded by President W. M. Mulholland and followed by a group of gentlemen, came upon the rostrum. The chairman made a brief speech, outlining the history of the Cartwright Club and enlarging upon its work.

A. Campbell, M.P. for Kent, was the first politician to speak, and began by saying he took the place of Mr. Bertram, M.P., who was too ill to be present. He made a glowing tribute to the orator of the evening and was answered by cheers from the audience.

Sir Richard Cartwright began his speech with reference to the National Policy, the national debt, the Klondike, the Crow's Nest Pass Railway were touched upon in turn, and then the orator gave an array of figures to show that the Conservatives increased the national debt out of all proportions to the necessity. Sir Richard then turned his vision to the future. He said there was a reasonable prospect of enormous increase of wealth to be found in the expansion of the mineral development of the country. Then there was another source of wealth he alluded to the amount of water power on the St. Lawrence and its tributaries.

Figures were then marshalled in serious ranks to show Canada's growing trade with the Mother Country and the United States.

The Yukon scandals was the next topic. Said Sir Richard: They talk of Yukon scandals and the way in which the Yukon territory had been administered. I say that on the whole the administration has been infinitely to the credit of Canada and the Liberal Government.

A Voice—What about the Senator?

Sir Richard—I think you may leave the Senate to Providence. (Cheers and system of doubt business.) We have decided to take the Yukon territory in its own good time will take that millions from off the neck of Canada. (Renewed laughter.)

### AN ELOQUENT SERMON

Delivered Yesterday Morning by Rev. Canon Burke.

Brief Notes of all the Services in the Different Places of Worship in Our City.

Commencing to-day, THE INTELLIGENCER will hereafter on Monday publish an extended report of a sermon delivered the day previous in one of the City pulpits. The different churches will be taken in rotation.

At St. Thomas' Church yesterday morning the service was very bright and inspiring. Rev. Mr. Oustin, Curate, read the service and Litany and Rev. Canon Burke, Rector, read the lessons and preached. The sermon, though short, in view of the warm weather, was full of striking points, and was worthy of the deepest attention of the congregation. The text was from the first Epistle to the Hebrews, verses 1 and 2:

God, who at sundry times and in divers manners spake in times past unto the fathers by the prophets,

Hath in these last days spoken unto us by His Son, whom He hath appointed heir of all things; by whom also He made the world.

We are reminded in these verses that at no time did God leave Himself without a witness to mankind, but it was a striking commentary on the ungratefulness of human nature that as man dwelt longer on the earth the more he forgot God. To His chosen people, the Jews, God sent prophets, by whom they were taught, and they heeded them not. In these latter days we, as Christians, are often moved to express surprise at the hardness of their hearts; let us look at the state of our own.

In the fulness of time God sent His only begotten Son to save mankind. In the parable of the wicked husbandman we are reminded of the coming of Jesus Christ. It is well to take thought nowdays, and sum up the different things taught, so that we may see what God communicates to His people. His communications have been on us to what Adam's sin really was. Don't let us 'one explain away to you Adam's sin. In Genesis the only just and reasonable account is given. Don't let any of the heresy of the present day lay any astray. The burden of the Lord was laid upon the prophets, and they spake in the name of God. The Jews themselves are the standing testimony of the power of God, proving that what He says He never forgets. As long as God's word stands, whether we read it or not, whether we hear it or not, there it is, and it will always be a witness against us. The most impressive words to every human being in the ages past or at the present time were the words of the Father, "This is my beloved Son; hear ye Him." Shall we hear or shall we not hear? Every word of Christ was the word of God. It tells us the blessing of accepting Him; it tells us the danger of rejecting Him. These are hard words, but He who sent them was always with us, and we understand them and obey them. "My brethren," said the preacher, "read the last chapter of Hebrews when you can; it is a glorious testimony." Let us seek of our own hearts now, "am I a follower of Jesus Christ?" The voice of Jesus calls us to our sins. "The venerable divine grows deeply impressive. We cannot," he said, "take up a book or paper nowdays but we read of some new blasphemy against Christ, of some new fantastical creed or sect, greater and never was for men to cling to the teachings of the true church."

The voice of God nowdays comes not to us in the thunder of Sinai; but it comes in the quiet whisper of the night, and is essentially a message of love. Let us try to realize that the greatest and most blessed hope of mankind is Jesus Christ our Lord.

BRIDGE ST.

The pastor being absent yesterday, the service was conducted by Mr. J. H. Dwyer, B.A., B.D., of Albert College. The Rev. Prof. preached two very instructive and able sermons. The evening discourse was founded on the word "Hope." After the taking up of the offering, Mr. J. S. McMurray rendered a solo in a manner which demonstrated that he is a beautiful singer and a powerful voice of his choir. There was a large congregation present.

At this place of worship last evening there was a large congregation present to hear Rev. Dr. Winch preach. The Rev. gentleman in the morning, his customary designate of the Belleville and Picton districts and Albert College to the Foreign Mission field. His discourse was much enjoyed. In the morning the pastor Rev. J. Rice preached, his subject being "Meditation upon God's Temple."

ST. ANDREW'S.

The attendance at this place of worship yesterday was good. Rev. M. W. Mackinnon, the pastor, preached of holy services and his discourse was of a high order. Mrs. May Price presided at the organ in the absence of Mr. Lou Rizzo, the organist.

BROKE INTO THE HOUSE.

Hold Burglars Effect an Entrance into the Residence of Mr. "Lew" Terwilliger.

Mr. and Mrs. L. Terwilliger and family have been on a visit to points in Michigan for the past two weeks, and on Saturday they returned home. Everything appeared to be in its customary condition when they arrived at their residence, but when they entered they at once saw that some party had effected an entrance by removing the hinges of the kitchen door.

Mr. Terwilliger, with his customary coolness and bravery, put his better half and the little Terwilligers in place of safety, and then, with a stout stick in his hand, started to investigate and find out what was missing, and, if any of the bold intruders had been in the house at the time, it is safe to say that he would have been their fate.

Suddenly he espied something in the furniture line which looked strange. It was a handsome comfort lounge, beautifully upholstered and upholstered, and planned upon an address from the members of the Oddfellows' Band, of which organization Mr. Terwilliger is a member, expressing their respect and esteem for him both as a man and a manager, and begging him to accept the lounge as a mark of their esteem.

Mr. Terwilliger was so overcome that he at once lay down on the lounge; for once in his life he was taken completely by surprise.

Mr. Terwilliger has been a member of the O.A.F. Band for well over a year, and it is safe to say that no more popular member wears the uniform of that organization.

A Big Clothing Trade.

For years the Oak Hall has shown a growing and increasing trade. The public know that years ago we were doing the clothing trade in a very small way and they know that to-day we have the finest clothing store in the city. We must have deserved the patronage. We are pleased to say that we are just closing the best August business record.

SULTANA GOLD MINE SOLD.

Biggest Deal Ever Made in the Western Ontario Gold Fields.

Sault Ste. Marie, Aug. 23.—The largest mining gold ever made in the Western Ontario gold fields was closed this week by the sale of the Sultana mine to the British Capital Corporation, Limited, for \$450,000. The mine has been the property of John F. Caldwell, who, as a single owner, has been for years at work there and who has developed the property to its present condition. He was the first man to open a mine on Lake of the Woods. Experts for the English buyers a few weeks ago reported that there is no less than \$3,500,000 in gold in the mine, besides immense reserves. The new company has paid Mr. Caldwell \$275,000 and a large amount in the new stock, and is about to offer its stock in London.

The mine comprises about 70 acres, with a vein about 30 feet wide on the surface and running about 27 to the ton in gold. It goes out for three years, with a ten stamp mill, averaged \$3,650 per week, and with the thirty stamp mill per in full fall the earnings have been at the rate of \$151,000 per year.

The John F. Caldwell ever referred to is the brother-in-law of Mr. Frank S. Wallbridge, barrister, of this city.

He Fooled The Surgeons.

All doctors told Benick Hamilton, of West Jefferson, N.C., after suffering its months of agony, that he would die unless a costly operation was performed; but he cured himself by using Dr. Williams' Pink Pills for Pale People.

About the Band Concerts.

One of our contemporaries in its issue of Saturday inferred that THE INTELLIGENCER and the J. J. Grit organ were in serious contention, and that the band concert given on Friday evening last was the last of the series. At a meeting of the various City Committees held on Friday evening, May 26th, the following recommendation prevailed, and at the Council proceedings on the Monday evening following the Committee's recommendation was sustained:

Ald. Stirling moved that a grant of \$200 be given the band to play 12 nights, once a week.

The motion of Ald. Stirling was carried on the casting vote of the Chairman, Ald. Hungerford, four voting for it and four against.

### ALD. HANLEY TALKS

The Chairman of Public Works Tells the Causes

For the Present Condition of Belleville's Streets and Sidewalks... Thinks the Appropriation is too Small.

A representative of THE INTELLIGENCER today called on Ald. Thos. Hanley, thinking that a few questions applied to that gentleman might elicit some facts which would be of interest to the readers of Belleville.

"Ald. Hanley," said our reporter, "many people are complaining about the state of the streets and sidewalks; would you care to say anything for publication in this regard?"

"Well," said the Chairman of Public Works, "I don't know that the condition of the streets is worse now than it has been in former years, but here is one reason for it—admitting that it is, which, mind you, I don't—the appropriation for Public Works this year is about \$1700 less than it has been in previous years. Usually it is about \$9000. It is impossible to do as much and as good work as when the appropriation was that much more."

"What was the cause of the appropriation being cut down?"

"It was necessary to cut something in order to keep the rate of taxation down to last year's rate, and the Public Works appropriation seemed to be about the only thing we could control in the Council. The public can easily see that, though the Public Works Committee had about \$1,700 more last year than this, it was then that the neglect was made which caused the streets to get into a bad condition, and it was impossible, with the small appropriation at our command, to get them this year into a proper state of repair."

The Alderman paused, and our reporter said: "Some people say that too much money has been spent on the Park, and other more necessary improvements have not been made."

"In answer to that," said the Alderman, "I may say that a great portion of the expense incurred in putting the park in the condition in which it is at present was by hauling the refuse and scrapings from Front and other streets. That hauling had to be done, and we were improving the Park as well as cleaning the streets."

Mr. Corby, M.P., gave \$100 on condition that the City should do its share towards building a bicycle path around the Island. The crowds that attended the concert demonstrated that the money expended there was the most popular expenditure this season."

"Can't you hold out any hope that the streets and sidewalks will be bettered any this year?"

"Well, the improvements we have made so far this year have been permanent; it is impossible to go over the whole city and make good streets and sidewalks with the appropriation. Early in the season a resolution was passed by the Council abolishing plank sidewalks, and certain plank walks were removed. Where the citizens are willing to pay their share towards granolithic walks they will replace the plank walks removed. The other walks, where citizens do not wish to pay their share towards granolithic walks, will be built with broken stone and fine screenings."

"When do you expect to begin the construction of the latter walks?" asked the reporter.

"As soon as the repairs to Front st. are completed," said Ald. Hanley.

"One more point I would like to state," said the Alderman, "some parties have talked about the repairs to lower Front st. Now, on lower Front st. there is a great amount of traffic, both in coal and all the grain and freight that comes from the boats. Mr. Corby cannot use his elevator unless the street is put in a proper state of repair. There will be a large amount of traffic to be done, and a citizen who, like Mr. Corby, has always shown himself public spirited and generous, should get a heavy support of the Council and citizens generally."

"By whom will the broken stone walks be laid?" said the INTELLIGENCER man.

"By the Street Surveyor and his staff," said the Alderman.

"One thing I would like to say," said Ald. Hanley, "our reporter rose to take his leave. 'Our appropriations for public works are not large enough to do justice to the large area of our city. We have in the neighborhood of 80 miles of sidewalks, and we should have an appropriation of at least \$15,000 a year to keep the streets and sidewalks in repair. I did my utmost in the spring, as the Council proceedings will show, to have adopted a regular system of permanent walks throughout the city, as they do in Brockville and other places. My view of the question is that debentures should be issued, and that the present generation should not be asked to bear all the expense of putting down these walks. The generations to come should pay their share of it.'"

"You brought up the question of economy a minute ago," said the scribe. "Could you suggest any other department in which a saving could be made?"

"No," said the Chairman of Public Works, as he put on his spectacles again and turned to his desk. "I could not. I think that everything is kept as low as possible."

**NEIL GOES DOWN.**

For the Next Six Months His Address Will be the Central Prison.

On Friday last Neil Darrah was before the P. M. in a charge of drunkenness and abusing his wife and family. On that occasion the Magistrate allowed him to go as he promised faithfully he would leave the City on Monday and leave his family in peace. He however failed to keep his promise, and on Saturday afternoon was again arrested while in the act of abusing his wife. The Magistrate imposed upon him a penalty of six months in the Central Prison. The officer who conveyed him to the jail expressed much difficulty with the prisoner as he fought desperately the whole distance, but was finally placed safely behind lock and bars.

**Glorious News.**  
Comes from Dr. D. B. Cargile, of Wash. D. C. It is written: Four bottles of Electric Bitters has cured Mrs. J. M. Darrah of her head and face, and the best doctors could give no help, but her cure is complete and her health is excellent. This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It is the supreme remedy for eczema, tetter, salt rashes, ulcers, boils and running sores. It stimulates liver and bowels, expels poisons, helps digestion, builds up the system. Only 50 cents. Sold by J. S. McKesson, Druggist, New York.

**PERSONAL**

**SOCIAL.**

The Toronto Intelligencer will be glad to contribute to the Toronto ladies' aid of a personal letter, as the editorial department is open to all. All that is required is to send a post card or to telephone the Intelligencer.

Mr. S. Burrows is at Preston Springs for the benefit of his health.

Dr. H. C. Nicholson, of Rochester, N.Y., spent Sunday in the City.

Mr. E. Howell, of Beamsville, is visiting in and around the City.

Mr. W. G. Harwood, clerk at Hotel Quin, has left the City for a few days.

Mr. L. Terwilliger and family have returned home after a two weeks' visit to friends in Michigan.

Mr. Fred S. Ingalls, of Cleveland, O., is visiting in the home of Mr. and Mrs. L. McWilliams, Conroyville.

Rev. D. O. Crossley, of Peterboro, has returned to that town much improved. He has been away for some time for the benefit of his health.

Misses Mary and Emma McWilliams, with their friend, Miss Maelyn Beck, of Cleveland, O., are spending a month with their parents at Conroyville. On their return home they will attend the Toronto Exposition.

**No Limit to Timpaness.**

There is no limit to earthly happiness when a chronic sufferer has once used Dr. Hall's Rheumatic Cure. John Clarke, Pittsburgh, Ont., suffered with Muscular Rheumatism in his legs for ten months. He tried doctors and numerous patent medicines without relief. One bottle of Dr. Hall's Rheumatic Cure cured him completely. He has not suffered with rheumatism since. This preparation is used internally. One bottle contains ten days' treatment, and costs 50 cents. For sale at all drug stores.

**THE NEW PONTON TRIAL.**

Definitely Decided That It Shall Begin at Cobourg on September 10.

Toronto, Aug. 26.—Dr. Chamberlain, inspector of prisons, reports that complete arrangements have now been made at Cobourg jail for the reception of the prisoner in connection with the Napoleon Bonaparte trial, which is to take place there on September 10. Some general improvements have been made, and the jail is now strong enough even to hold Paris.

**Discovered by a Woman.**

Another great discovery has been made, and that, too, by a lady. This country and the world are indebted to her for the discovery of the value of the "Napoleon Bonaparte" trial, which is to take place there on September 10. Some general improvements have been made, and the jail is now strong enough even to hold Paris.

# Too hot To sleep?

The oppressive heat of summer keeps many a one tossing all night on a sleepless couch, and so drowsy and listless in the day time that work is impossible.

This kind of thing will run down the strongest constitution. A teaspoonful of

Abbey's Effervescent Salt

in a tumbler of water, taken night and morning, will keep the blood cool, invigorate the system and bring restful sleep at night.

Drink it at any time, 'twill satisfy your thirst and refresh the system.

The Canadian Pharmaceutical Journal says:

"We have tried Abbey's Effervescent Salt, and find it an excellent compound. It was most favorably commented upon by the medical profession at the meeting in Montreal of the British Medical Association. The compound was not afraid of submitting it to the criticism of the medical men. All were inclined to sample and pass judgment on it. It was invariably favorable, some expressing the opinion that it was superior to any other on the market. A morning draught of this stimulating preparation will send a man to his daily occupation invigorated and ready for any task."

# COLLIER SHARES.

Safest Investment, Largest Dividends.

A portion of the full paid and non-assessable capital of the Boston & Texas Copper Company is offered for sale at Five Dollars per Share (for \$10 for Treasury purposes), and is recommended as a safe and highly promising investment.

The company controls twelve thousand acres of rich copper land in North Texas which is also valuable for farming and town site purposes. The tract is some 10 miles long and about three miles wide. It is equivalent in size to five hundred ordinary mining claims.

The property has been developed sufficiently to begin producing at once. Large amounts of the richest copper ore (90 to 95 per cent) taken out and marketed, and inexhaustible quantities of copper mill and clay running from 3 to 15 per cent. copper found. (Calumet and Hecla and other great dividend payers are working on 1 to 3 per cent. ore.)

The property is within 12 miles of a railroad and fuel and water are available. The ore and mill are on the surface and a few feet down, and can be mined and converted into copper cheaper than any other deposits in America. Copper will be produced on the ground and a plant of 500 tons will treat 30 to 500 tons of ore and material per day, and according to engineers estimates cost \$3.00 to \$5.00 per ton, with copper at 15 cts. per pound. It is now 18 cts. per pound.

The property has a historical reputation and a record in the State Geological Reports. It is not an experiment, nor its value speculative, they are proven and demonstrated.

## BANDSMEN ARE INDIGNANT

At the Charge of a Local Paper That They Have Not Fulfilled Their Obligations to the City.

Some of the bandmen have been expressing themselves rather strongly concerning the allegation of a local paper that, by not playing thirteen concerts, they have failed to honorably fulfill their contract to the City. A visit was paid to Bandmaster Riggs this morning to hear what he had to say about the matter.

"It is preposterous," said Mr. Riggs, "to say that we contracted to give thirteen concerts. Our first offer was to give two concerts for \$300. That was voted down, and then a motion was introduced by Ald. Stirling that the band receive \$200 for twelve concerts, which prevailed. We have given the twelve concerts, and we are willing to give another as a compliment to the citizens, but we want credit for it as such, and we don't want to be made to look small. We won't be bullied, that's the fact of the matter."

"Perhaps some people thought you contracted to play every Thursday night during June, July and August," suggested the reporter.

"That would not hold good," said Mr. Riggs, "for in those three months there were fourteen Thursdays. After the last concert Ald. Stirling told me personally that, now the concerts were finished, he desired to compliment the Band on the great success they had been, and said he had intended, on last Friday night, to come to the Park and publicly thank the Band, but circumstances kept him away. I think it poor policy for any paper to attempt to stir up strife and ill-feeling between the City, and if we play again it will be as a compliment, not because we have to. Of course it is a small matter, anyway, but the members of the Band did not like the insinuation that they were indulging in sharp practice."

"Have you had any requests yet for the numbers to be played at the last concert?" asked the reporter.

"Yes, we have four so far," said Mr. Riggs, and he named them, and as sure as the reporter is a living sinner there isn't one of them written in "rag-time," they are all, with one partial exception, severely classical.

### A CLERICAL ENCOMIUM.

Rev. Canon Burke Praises the Sermon of a Visiting Divine.

To the Editor of THE INTELLIGENCER.

Sir,—I noticed in your issue of last evening a friendly notice of my sermon on Sunday. Your opinion was much more favorable than mine, but I regretted that you did not notice the sermon in the evening, which was much more worthy of your attention. The Rev. Frank Dumoulin, rector of St. Peter's Church, Chicago, and son of the Lord Bishop of Niagara, in compliance with the request of myself and other friends, preached at the evening service at St. Thomas' Church. His text was St. John III, 12.

### Charged With Non-Support.

Wm. Goldsmith was arrested last evening upon a warrant charging him with non-support of his wife and children. It is alleged that on Saturday and Sunday Mrs. Goldsmith, although in the pangs of child-birth, was not attended by a physician, and the husband, knowing of her condition, remained away from home on Saturday and Sunday night. The case was ventilated at the police court this afternoon.

## THREATENED HIS WIFE'S LIFE.

For This Offence F. Walter Will Spend Two Months in Jail.

Frank Walter, of the village of Thompsonburg, was yesterday found guilty of threatening to do bodily harm to his wife, who, it is said, is a hard working, industrious woman. For the offence he was given a sentence of two months in the County Jail, and this morning County Constable Wilson, of Tweed, escorted Walter to the jail. It is alleged that Walter has previously to this offence, threatened to brain his wife and had also threatened to shoot her. The cause of the trouble in Walter's indulgence in liquor.

### WERE BADLY FRIGHTENED.

Employees of a Threshing Machine's Owner Take to the Woods.

Our Sidney Crossing correspondent writes: Men employed by Mr. John Lovelace, Front of Sidney, helping him thresh, had quite a scare. Mr. Jackson, the engineer, opened the blow off tap to obtain some hot water; the heavy load of steam forced the tap all the way open, letting the steam rush out of the boiler; those who were in the barn thought that the boiler had exploded and rushed to places of safety under the straw stacks and into the woods. Fortunately no one was hurt, although all received a good scare.

### Results Tell.

The proof of the pudding is the eating, and the proof of the extraordinary power over pain of Polson's Nervine is in using it. Polson's Nervine never fails to perform wonders in every case of pain. It cannot fail, for it is composed of powerful pain subduing remedies. It goes right to the source of the pain, and cures it. Nervine cures all kinds of pain, internal or external. Go to any drug store and get a bottle and be satisfied by its promptitude in doing its work.

### THE WHEEL CAME OFF

And Dr. Farley Had an Exciting Time for a Minute or Two.

This morning Dr. Farley was driving down John st. When near the John st. Church one of the wheels of the vehicle came off. This frightened the horse and it started off at a lively gallop. The doctor held on pluckily until Bridge st. was reached, where he guided the animal into a tree near the opera house. The occupant fortunately escaped injury, but the animal sustained a severe cut upon one of its hind legs.

## MRS JAMES H. MEACHAM DEAD.

Widow of Belleville's Former Postmaster Passes Peacefully Away.

There passed away, at about noon today, one whom to know was to honor. Mrs. Meacham, widow of the late James H. Meacham, has gone "beyond the smiling and weeping." Universally respected for her many acts of piety and unselfish charity, she leaves behind her a record which will ever linger, like a sweet and gracious fragrance, in the memories of those who were fortunate enough to know her. The maiden name of the late Mrs. Meacham was Agnes Booth, and she was born in Quebec City 71 years ago. Two years ago last May Mrs. Meacham experienced the pangs of widowhood, her respected husband, James H. Meacham, then being taken from her. The deceased lady was Mr. Meacham's second wife, and had no offspring, but three stepchildren, one son and two daughters survive to mourn her loss. The stepchildren comprise Rev. Dr. Meacham, the well known divine; J. B. Meacham, druggist, Toronto; and Mrs. J. C. Wilson, Glenora, Ont. Mr. James Booth, of this City, is her brother, and her stepson, J. A. H. Meacham, of this City, is her stepson. The cause of death was senile decay. The deceased lady had been for many years a devoted member of St. John's Church, and was formerly a class-leader. In works of charity and mercy she ever took a prominent part, being an honored and useful member of the W. C. T. U. The funeral will take place on Thursday afternoon at 4 o'clock, and those who attend it will follow to the tomb the mortal remains of one loved and respected by all with whom she came into contact.

#### Ranjitsinhji to Bring Well-Known Amateurs to America.

London, Aug. 27.—Prince Ranjitsinhji, the noted Indian cricket player, in speaking to a representative of the Associated Press here today in regard to the team of cricketers he will take to the United States, said:

They are all amateurs. The personnel has not yet been decided, except that the team is sure to include McLaren, who captained the English eleven in the last Australian tour. Probably the others will be almost as well-known. I am looking forward to the tour with every anticipation of good cricket and much enjoyment.

#### The Associated Cricket Clubs of Philadelphia are making arrangements for a visit to the Prince of Wales, and they have scheduled the following games for Philadelphia: September 22, 23 and 25, v. 18 Philadelphia colts at Belmont; September 29 and 30 and October 2, v. Gentlemen of Philadelphia, at Manheim; October 6, 7 and 9, v. Gentlemen of Philadelphia, on the Merion grounds.

#### The Anglo-Australian, A. E. Trott, created a world's record in the Middlesex and Lancashire match by taking his 200th wicket and scoring 1,000 runs. He is the only player that ever accomplished this feat in first-class cricket during a season, though in 1876 W. G. Grace scored 2,622 runs and took 124 wickets. In 1875, too, the champion had an aggregate of 1,498 runs and 192 wickets.

# Effervescing Coolness.

When the warmth of the day has extracted all energy from the system, and breathing seems a burden, there is nothing so deliciously refreshing, cooling and invigorating as a teaspoonful of

ABBEY'S EFFERVESCENT SALT

in a tumbler of water. It soothes the stomach, cools the blood, and gratifies the thirst. It may be taken at any time with beneficial results.

Dr. G. P. Sylvester, Toronto, says:

"I give me pleasure to testify to the merits of your preparation. I have been using it in my family for some time, and find it one of the most pleasant and efficient laxatives I have ever used. To the weak and indigestible it is soothing, and overcomes acidity that may exist. I have used it in many cases of Rheumatism and Gout, assisting to neutralize the uric acid, and to help to eliminate it. I will continue to prescribe it on all occasions where it appears suitable."

Sold by all druggists. 60c a bottle, trial size 25c.
